Subject: Please Do not Cancel Camp 4 Williamson Contract

Dear Supervisor Farr-

I understand there is a possibility of the County approving a cancelation of the Williamson Contract covering the property commonly known as Camp 4 (or a portion of Camp 4).

While I understand that it is within the right of any property owner to petition for cancelation of a contract rather than letting it run for the 10 year term, I truly hope that approving that request is not a serious possibility.

There are many legitimate concerns both environmental and otherwise regarding the effect of the proposed high density development of portions of this property. To put it in simple terms, hastening this development is a really bad idea.

Best Regards – Sig Hansen
