## DEPARTMENT AND COUNTY NEWS

**Planning Underway for Strengthening Families Pilot Program:** Thanks to a \$51,490 grant from the Inter-Agency Policy Council, the Behavioral Wellness Department will launch a pilot Strengthening Families Program (SFP) in Santa Maria in April. Between five and 10 families will be served over a 10-week period. The families will be predominantly, if not exclusively, monolingual Spanish-speaking families whose children are either currently affected with substance use disorders or at high risk of becoming affected. Treatment will include family therapy and incentives to engage and maintain treatment engagement. Child care will be included for children under 10 years of age who are too young to engage in the treatment. The services will be provided by licensed clinicians who are trained in multi-family therapy and the SFP model.

The SFP will also be established as a primary prevention strategy beginning around October 1. Three 10-week sessions per region will be provided by contracted community-based organizations. These primary prevention services will be provided by licensed clinicians and/or certified drug and alcohol counselors to families who have not yet been affected by substance abuse disorders but are at high risk of becoming affected. For more information, see <https://www.strengtheningfamiliesprogram.org/>

**Behavioral Wellness Offers Homeless Outreach at Opening of New Hope Community Center:** On February 25, Behavioral Wellness Staff members Enrique Bautista and Evan Kudler provided homeless outreach during the grand opening of the New Hope Community Center in Santa Maria. Enrique and Evan staffed a table with information in English and Spanish about Behavioral Wellness programs and services and how to access them. Located at 406 West Mill Street, the community center is the result of about nine years of planning and collective work on the part of the New Hope Missionary Baptist Church, its members and many local organizations. The community center provides monthly assistance to homeless individuals.

**Behavioral Wellness Policies and Procedures Strengthened:** During FY 2016-2017, the Department of Behavioral Wellness drafted 50 new policies and submitted 12 policies for revisions. Forty of the new policies were Psychiatric Health Facility (PHF)-specific policies, all of which were approved by the PHF Governing Board and Medical Practice Committee. Three of the new policies drafted pertained to the Quality Care Management Division of Behavioral Wellness, two of the new policies were specific to the Alcohol and Drug Program, two concerned Patients' Rights, and one pertained to the Access to Quality Care and Services.

Recently approved policies appear below. All Behavioral Wellness policies and procedures may be found [here](#).

## NATIONAL AND STATE NEWS

**Grant Webinar in Medication Assisted Treatment is March 27:** The California Department of Health Care Services (HCS) will be hosting a webinar on March 27, 2017, regarding the SAMHSA Opioid State Targeted Response (STR) grant opportunity. The webinar will provide details on California's application, the Medication Assisted Treatment (MAT) Expansion Project. Please register for the MAT Expansion Project Webinar at: <https://attendee.gotowebinar.com/register/6390144258385237505>

California will strategically focus on populations with limited MAT access including rural areas, American Indian and Native Alaskan (AI/NA) tribal communities and statewide access to buprenorphine. The grant focuses on two projects: the California Hub and Spoke System (CA H&SS) and the Tribal MAT Project. The goals of the project are to implement the Hub and Spoke model in various areas throughout California which will improve access to Narcotic Treatment Programs (NTPs), Medication Units in counties with the highest overdose rates. The MAT Expansion Project will also increase the availability of buprenorphine statewide and increase MAT utilization for tribal communities. The presenters will be Karen Baylor and Marlies Perez. After registering, you will receive a confirmation email containing information about joining the webinar.

**Addiction Medicine Officially Recognized as Medical Subspecialty:** "For the first time ever, the more than 850,000 physicians who are certified by a member board of the [American Board of Medical Specialties \(ABMS\)](#) will be able to sit for an exam to obtain certification in the *sub-specialty of addiction medicine*. Physicians who are certified by any of the 24 Member Boards of the ABMS and have substantial

experience in the field of addiction medicine are eligible to apply to take the examination during the first five years that the exam is offered. Thereafter, a one-year addiction medicine fellowship will be required to take the examination. There are already [44 accredited addiction medicine fellowship programs](#). Review Course: To help physicians prepare for the exam, the [American Society of Addiction Medicine](#) will be conducting a review course for physicians in Dallas, Texas, from July 27-29. Physicians interested in certification or recertification can find more information on the course and a link to the course registration site [here](#). Certification Exam: The first certification exam will be offered in fall 2017, with anticipated application dates in April and May 2017. Details can be found [here](#)." **CDC Modernizes Pain Management and Prescription Guidelines with New App:** "The Centers for Disease Control and Prevention (CDC) introduced a free Opioid Guideline App that allows users to access the agency's recommendations on pain management and opioid treatment. The purpose of the app is to provide healthcare professionals and patients with quick reference materials on the prescription opioid overdose crisis and help them make informed clinical decisions. Features include a useful and intuitive Morphine Milligram Equivalent (MME) calculator for drugs such as hydrocodone, transdermal fentanyl, and other opioids. Additionally, the app contains summaries of key guideline recommendations, a glossary of terms, and an interactive motivational interview feature. For more information on the app, visit the CDC's website by clicking [here](#). The app is free to download and can be found on the Apple App Store, the iTunes store, and the Google Play store by searching "CDC Opioid Guideline." From: ONDCP March 2017 Newsletter.
