APPENDIX I

FUND ACCOUNTING- The accounts of the County are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balanced set of accounts. The minimum number of funds is maintained consistent with legal and managerial requirements.

The County maintains the following fund types:

GOVERNMENTAL FUNDS- are used to account for most of the County's general government activities. Governmental fund types use the flow of current *financial* resources measurement focus and the modified-accrual basis of accounting. The following are the County's governmental fund types:

The General Fund- is the County's primary operating fund. It accounts for all the financial resources and the legally authorized activities of the County except those required to be accounted for in other specialized funds.

Special Revenue Funds- account for the revenue sources that are legally restricted to expenditures for specific purposes (not including major capital projects).

Debt Service Funds- account for the accumulation of resources for the servicing of general long-term debt not being financed by proprietary funds.

Capital Project Funds- account for the acquisition or construction of major capital assets not being financed by proprietary funds.

Basis of Accounting and Budgeting: The County uses the modified accrual basis of accounting and budgeting for Governmental Funds.

PROPRIETARY FUNDS- use the flow of *economic* resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized when the related liabilities are incurred. The following are the County's proprietary fund types:

Enterprise Funds- account for those operations that are financed and operated in a manner similar to private business enterprises or where the County has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Internal Service Funds- account for operations that provide services to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

Basis of Accounting and Budgeting- The County uses the accrual basis of accounting and budgeting for Proprietary Funds. Additionally, the County budgets for capital assets, lease purchase payments and long term debt principal repayment in order to establish appropriations, and monitor expenditure and cash flow in these funds.

FIDUCIARY FUNDS- account for resources held by the County for the benefit of parties outside the County.

Agency Funds- are custodial in nature and do not present results of operations or have a measurement focus. These funds account for assets held by the County in an agency capacity for individuals, private organizations, other governmental entities and other funds.

Investment Trust Funds- are custodial in nature. The financial reporting for these entities is limited to the total amount of cash and investments and the related fiduciary responsibility for disbursement of these assets. The County Board of Supervisors has no effective budget authority over these custodial monies.

Such funds are authorized by statutory provisions to pay for certain activities of a continuing nature. Included in the Special Revenue classification are the following funds:

Road- The Road Fund is used to account for the planning, design, construction, maintenance and administration of County roads. It is also used to account for traffic safety and other transportation planning activities. Revenues consist primarily of the County's share of State highway user taxes, local taxes, and federal grants.

Fish and Game- The Fish and Game Fund is used to account for fines and forfeits received under Section 13003 of the Fish and Game Code and for other revenue and expenditures for the propagation and conservation of fish and game. INTERNAL SERVICE FUNDS- Internal Service funds are established to account for services furnished to the County and various other governmental agencies. ISFs are exempt from legal compliance for budgetary control and follow commercial accounting principles for a determination of operating, rather than budgetary, results. Their major source of revenue consists of charges to user departments for services rendered. These charges are based upon standard rates calculated on an estimated cost recovery basis. ISFs established and used by the County are as follows:

Information Technology Services- This fund accounts for data processing services to County departments and various other governmental agencies. Rates charged to users are designed to recover costs of each system and are billed from a standard price schedule, which is periodically adjusted to reflect cost changes. Profits/losses are carried forward and used to adjust price schedules of subsequent billing rates. Costs of operating the fund include personnel, supplies, utilities, maintenance, and depreciation of equipment.

Vehicle Operations and Maintenance- This fund accounts for the maintenance, servicing and repair of County vehicles. Rental rates, including the cost of gas, oil, maintenance, replacement of equipment and personnel costs, are charged to the user department. The County contracts with a preferred provider organization for reduced fees from member dental service providers. The County contributes towards the cost of employee coverage through departmental budgets; any remaining employee or dependent coverage is paid by the employee.

Unemployment Self Insurance- State law requires the County to maintain unemployment insurance. The County has elected to be self-insured and has established this fund for the payment of unemployment insurance claims by County employees that have been processed and approved by the State Employment Development Department. Each department has been charged a percentage of its gross payroll for the establishment of a general reserve for this program and to provide for claim payments.

Workers' Compensation Self Insurance- This fund accounts for investigation services, temporary disability and medical payments, excess insurance, permanent disability awards, administrative services, litigation costs, and safety services. Premiums based on employee worker classifications are charged to each department to maintain actuarially recommended reserves for claims proportionate to current industry rates applicable to job functions.

Contributions are made by participating County departments and funds based on past claims experience and appropriate risk factors.

Contributions are made by covered participating County departments and are based on allocation of expenses by past claims experience and appropriate risk factor.

Communications- This fund was established to account for centralized coordination of all County radio and communications activity. User departments are charged a monthly fee for maintenance and engineering services on the equipment in their possession. Fees include depreciation to provide for the eventual replacement of all radio equipment. Telephone Services, formerly a general fund program, was transferred into this fund effective July 1, 1995. Rates charged users are designed to provide reliable, modern, cost effective telephone, voice mail, radio, microwave, security control and audio-visual services for use by Santa Barbara County employees and contract agencies.
