If you live in Ojai and want to enroll in a Kaiser HMO plan, please note the following. All Kaiser members must receive services from Plan providers inside Kaiser's service area—except for covered out-of-area urgent care (when temporarily outside the service area) and emergency care—as described in the Evidence of Coverage. This also means that some services received in the home will not be covered for members who live outside the service area, such as durable medical equipment (for example, wheelchairs and oxygen) and home health care. The Evidence of Coverage provides more informaton.

* Facility: MOB = Medical Office Building,
