I think our frequencies are different than any other in Public Works						
We use portable Motorola radios at the Tajiguas Landfill with frequency: 458.325 PL 82.5						
We have fixed radio units in all of our truck tractors, rollofs and loaders at the So. Coast Transfer St.: 453.525 and 458.525						
We have a mixture of portable and fixed at Santa Ynez: 453.525
