Construction of Storm Damage Repairs on East Camino Cielo 1.3 Miles from Highway 154 to Begin December 3, 2007

The Santa Barbara County Public Works Department is scheduled to begin construction of Storm Damage Repairs on East Camino Cielo starting December 3, 2007. This project, located 1.3 miles west of Highway 154, includes construction of a retaining wall and rebuilding a portion of roadway lost during the 2005 storm events.

Construction is scheduled to begin December 3rd and is expected to be completed by mid-January, 2008, contingent upon weather conditions. During this period, the road may be closed during construction hours as shown in the table below. When the road is open and construction is ongoing, the site will be subject to one-way traffic with stop signs. There may also be delays up to 20 minutes. In addition to restricted traffic at the site, there will be large trucks and heavy equipment on this narrow road. Non-local automobiles, bicycles and pedestrians are encouraged to use alternate routes until construction is complete.

Public Works Department officials thank the public and motorists for their patience and cooperation.
