New Isla Vista Parking Lot Powered by the Sun

Third District Supervisor Doreen Farr, Santa Barbara County and the County Redevelopment Agency would like to invite you to a special grand opening ceremony for the new Solar Car Park in downtown Isla Vista located at 881 Embarcadero del Mar. The event will take place on **Thursday, November 12 at 1:30 p.m.**

The Solar Car Park is a new 45 space public parking lot that incorporates a number of innovative green design elements including a 17 kW solar panel system that powers lighting both in the lot and along Pardall Road. Other green design elements include a “rain garden” water catchment system to irrigate the landscaping, two future electric vehicle charging stations, a seating area constructed of local sandstone, and bio-filters that act to remove pollutants from storm water before it reaches Isla Vista beaches.
