HOW Submit a complete application to Planning and Development no later than 2:00 p.m. Friday (or Monday for Montecito BAR), 3 weeks prior to the requested meeting date.

NOTE: The agenda may be closed prior to the 2:00 p.m. deadline if a large number of applications have been received.

WHICH Applicants are encouraged to submit for conceptual review in order to informally discuss a project's concept or theme, and then return for preliminary and/or final approval.

Revised preliminary or revised final review is used when a project has already received preliminary or final approval and the applicant wishes to make substantial changes that would require further BAR review and approval.

Applicants may not request more than revised conceptual approval without the prior approval from the assigned case planner.

EXEMPTIONS

The following developments are exempt from BAR review:

- Fences of 6 feet or less (in some cases)
- Gate posts of 8 feet or less (in some cases)
- Solar panels
- Swimming pools, hot tubs or spas
- Interior Alterations
- Decks

Additional Exemptions from North County BAR:

- Single-family dwellings, and commercial/industrial projects not open to the public, that are not visible from public roads and other public areas, are exempt from review by the NBAR, and
- Action by the NBAR on a non-exempt single-family dwelling is advisory only and is to be completed within either three meetings or three months of application submittal, whichever occurs first.

These special provisions do not apply to Development Plans within the jurisdiction of the Planning Commission and structures subject to approved ministerial and discretionary permits, including subdivision maps that require review and approval by the Board of Architectural Review in order to mitigate visual impacts or provide for consistency with the Comprehensive Plan, including adopted Community Plans.
APPEALS Decisions of the BAR may be appealed to the Planning Commission by the applicant or any other interested party within 10 days of the final BAR action. A Land Use Permit for the project cannot be issued until the appeal period has expired.

EXPIRATION Board of Architectural Review approvals expire the date the associated development permit (e.g., Coastal Development Permit, Development Plan), including time extensions, expires. Where no development permit exists, Board of Architectural Review approvals expire two years from the date of approval, except the Director may grant an extension of the approval if an active development application is being processed by Planning and Development.

GRADING For projects requiring Grading Plan approval, conceptual BAR review must occur before a land use or coastal development permit may be processed.
