ENVIRONMENTALLY SENSITIVE HABITAT (ESH) & RIPARIAN CORRIDOR (RC) - GOLETA (GOL) OVERLAY

If your project falls within any ESH or the RC- GOL Overlay Zones, please submit the following additional information.

SUBMITTAL REQUIREMENTS

- ✓ A brief description of the flora and fauna which are currently or occasionally found on-site (or those known to occur in the Riparian Corridor for the RC-GOL overlay);
- ✓ A brief description of their habitats which may be found on-site;
- ✓ A clear delineation of all streams, rivers, water bodies, and wetlands located on-site.
- ✓ A clear delineation of all areas which shall be graded, paved, surfaced, or covered with structures;
- ✓ A description of the surfacing materials to be used;
- ✓ Photographs clearly showing all areas subject to disturbance;
- ✓ For areas one acre or greater, a one inch to 100-foot scale color aerial photograph identifying the proposed area of site disturbance and any visible landmarks (e.g. roads and creeks).

****Note:** *The Department may request additional submittal information pertinent to the particular development that may be necessary for review of the project.*
