

**SANTA BARBARA COUNTY SCOPING MEETING FOR THE  
PETROROCK UCCB PRODUCTION PLAN PROJECT**

**DATE:** June 18, 2018  
**TIME:** 6:00 PM  
**LOCATION:** Betteravia Government Center Board of Supervisor's Conference Room, 511 East Lakeview Parkway, Santa Maria, CA 93455

Planning & Development has deemed PetroRock LLC's application for 15PPP-00000-00002 and 16DVP-00000-00015 to be complete and begun environmental review pursuant to the California Environmental Quality Act (CEQA) for the PetroRock United California, California, Bradley (UCCB) Production Plan project located east and north of Dominion Road and south of Orcutt-Garey Road in the Santa Maria area. A scoping meeting will be held at the time and location identified above to gather public comment on the scope of environmental review for the project.

PetroRock LLC has proposed to reactivate oil production in the north central portion of the State designated Cat Canyon Oil Field through a thermally enhanced oil recovery process built out in two phases. The proposed Project includes the following:

- Oil Drilling and Production Plan (ODPP) (County Case No. 15PPP-00000-00002) to allow for establishment of oil and gas production operations as described below:
  - Development of approximately 29 pads (including new construction and redevelopment of existing well pads and a Tank Battery pad), field access roads and the installation of up to 231 oil production, injection and water wells.
  - Construction of new processing facilities including tanks, loading racks, separators, heater treaters, five (5) steam generators, and other associated equipment.
  - Construction of field pipeline and water systems including a production gathering network, steam distribution network, and a supervisory control and data acquisition (SCADA) system to monitor wells and equipment.
  - Construction of project infrastructure would also include a new office building, workshop and operator building.
  - Addition of utility/electric lines to well pads.
- Development Plan (County Case No. 16DVP-00000-00015) to allow for construction of an approximately 2.7-mile private natural gas line which would extend from an existing Public Utilities Commission gas pipeline to bring additional gas to the project site and an oil sales pipeline to a connection with the Foxen Canyon Pipeline along Foxen Canyon Road.

P&D invites you and other interested persons and organizations to comment on our preliminary assessment of the environmental issues to be evaluated as we proceed with environmental review of the project. The scoping meeting discussion will be limited to environmental concerns, the focus of the project environmental document, feasible ways

in which project impacts may be minimized (mitigation measures) and potential alternatives to the project. Any environmental concerns may be raised by the public at the meeting. P&D staff encourages your participation in this process; please pass on this information to others you feel would be interested in attending this meeting.

We look forward to your participation on Monday, June 18, 2018 at 6:00 PM at the Betteravia Government Center Board of Supervisor's Conference Room, 511 East Lakeview Parkway, Santa Maria, CA 93455.

Please contact Joseph Dargel at (805) 568-3573 or by email at [jdargel@countyofsb.org](mailto:jdargel@countyofsb.org) for additional information.
