

**SANTA BARBARA COUNTY SCOPING MEETING FOR THE  
EXXONMOBIL INTERIM TRUCKING FOR SYU PHASED RESTART  
PROJECT**

**DATE:** July 11, 2018  
**TIME:** 6PM  
**LOCATION:** Planning Commission Hearing Room, Engineering Building, 123  
E. Anapamu Street, Santa Barbara, CA 93101

Planning & Development (P&D) has deemed ExxonMobil, LLC (ExxonMobil) application for 17RVP-00000-00081 to be complete and has begun environmental review pursuant to the California Environmental Quality Act (CEQA) for the Interim Trucking for Santa Ynez Unit Phased Restart Project. Pursuant to CEQA Guidelines Section 15082, P&D has sent a Notice of Preparation to the State Clearinghouse to initiate the start of public comment on June 15, 2018. A scoping meeting will be held at the time and location identified above to gather public comment on the scope of environmental review for the project.

ExxonMobil has proposed to conduct a phased restart of the Las Flores Canyon (LFC) Facility and initiate the trucking of limited crude oil production as an interim solution until a pipeline alternative becomes available to transport crude oil to a refinery destination. Trucking will occur seven days per week, 24-hours per day, with no more than 70 trucks leaving the facility within a 24-hour period to one or both of the two identified receiver sites located in Santa Maria and Maricopa. The project will include minor modifications to the LFC facilities including the installation of four Lease Automatic Custody Transfer (LACT) Units, associated piping, electrical and communication connections, pipe and equipment supports, truck loading racks, operator shelter and paving of selected areas. The proposed project would require a revision to the existing development plan (Case No. 87-DP-32cz) and environmental review would be conducted under a supplement to the existing environmental impact report (83-EIR-22).

P&D invites you and other interested persons and organizations to comment on our preliminary assessment of the environmental issues to be evaluated as we proceed with environmental review of the project. The scoping meeting discussion will be limited to environmental concerns, project environmental document, feasible ways in which project impacts may be minimized (mitigation measures) and potential alternatives to the project. Any other environmental concerns may be raised by the public at the meeting. P&D staff encourages your participation in this process; please pass on this information to others you feel would be interested in attending this meeting.

We look forward to your participation on **July 11th, 2018** at 6PM at Planning Commission Hearing Room, Engineering Building, 123 E. Anapamu Street, Santa Barbara, CA 93101.

Please contact Kathryn Lehr at (805) 568-3560 for additional information.
