

# IRWM PROJECT SCORING TABLES – Round 1 Implementation – Preliminary Ranking – April 2019

Project	Criteria	Score	Notes
CAPP	Proposal eligibility		
	Respond to climate change (3 pts.)	2	
	Contribute to regional water self-reliance (3 pts.)	1	
	General Project Eligibility		
	Address critical needs of Santa Barbara County IRWM region (3 pts.)	1	
	Consistent with Statewide Priorities in Guidelines (3 pts.)	3	
	If applicable, expected useful life of 15+ years (3 pts.)	3	
	CEQA completed (0,1,2 pts) – CEQA must be completed within 12 months of award.	1	
	Evaluate competitiveness based on IRWM Plan Objectives (9 pts.) and Planning Targets (27 pts.)		
	Overarching Subjects		
	i. Protect, conserve, and augment water supplies	3	
	ii. Protect, manage, and increase groundwater supplies	3	
	iii. Practice balanced natural resource stewardship	1	
	iv. Protect and improve water quality	1	
	v. Improve flood management	0	
vi. Improve emergency preparedness	2		
vii. Maintain and enhance water and wastewater infrastructure efficiency and reliability	2		
viii. Address climate change through adaptation and mitigation	2		
ix. Ensure equitable distribution of benefits	1		
Evaluate project development and documentation per the criteria in DWR's PSP			
Project Start Date	0		
Technical Justification			
Feasibility study (0/1)	1		
Alternative analysis (0/1)	1		
Benefit Cost Analysis			
Project cost estimate (0/1)	1		
Benefits estimates (0/1)	1		
<b>TOTAL POINTS</b>		<b>30</b>	

Project	Criteria	Score	Notes
Emergency Intertie Project	Proposal eligibility		
	Respond to climate change (3 pts.)	2	
	Contribute to regional water self-reliance (3 pts.)	3	
	General Project Eligibility		
	Address critical needs of Santa Barbara County IRWM region (3 pts.)	1	
	Consistent with Statewide Priorities in Guidelines (3 pts.)	3	
	If applicable, expected useful life of 15+ years (3 pts.)	3	
	CEQA completed (0,1,2 pts) – CEQA must be completed within 12 months of award.	0	
	Evaluate competitiveness based on IRWM Plan Objectives (9 pts.) and Planning Targets (27 pts.)		
	Overarching Subjects		
i. Protect, conserve, and augment water supplies	2		
ii. Protect, manage, and increase groundwater supplies	0		
iii. Practice balanced natural resource stewardship	0		
iv. Protect and improve water quality	0		
v. Improve flood management	0		
vi. Improve emergency preparedness	3		
vii. Maintain and enhance water and wastewater infrastructure efficiency and reliability	3		
viii. Address climate change through adaptation and mitigation	2		
ix. Ensure equitable distribution of benefits	1		
Evaluate project development and documentation per the criteria in DWR's PSP			
Project Start Date	0
