

Here are a few ways to obtain weather information from the National Weather Service – Los Angeles/Oxnard Weather Forecast Office:

On the internet: [www.wrh.noaa.gov/lox/](http://www.wrh.noaa.gov/lox/)

By phone: (805) 988-6610

For the automated weather phone service select menu option 1 and then menu option 3 for Santa Barbara County. To speak to a weather specialist between the hours of 9:30 a.m. and 3:00 p.m. select menu option 1 and then menu option 6.

Local television & radio stations also serve as a major distributor of information provided by the National Weather Service.

The National Weather Service also operates six radio transmitters which broadcast information daily. A receiver can be purchased at most local electronic stores. For the frequency that covers your area please visit the National Weather Service website at: [www.wrh.noaa.gov/lox/](http://www.wrh.noaa.gov/lox/)
