THOMAS FIRE – GROWER ASSISTANCE WORKSHOP

The Thomas Fire has impacted many residents and businesses in Santa Barbara County, including the agricultural community. To assist members of the Santa Barbara County agricultural community, the Agricultural Commissioner’s Office is hosting a Thomas Fire-Growers Assistance Workshop on Friday, January 5th in Carpinteria. Representatives from multiple agencies will be available to discuss their disaster assistance programs and resources such as funding and technical assistance for non-insured crops, crop rehabilitation, debris removal, land leveling and shaping, irrigation replacement, and cattle fencing. Interested persons will meet with each agency individually to determine what programs best suit their needs. There is no fee to attend the workshop.

Please contact our office by Wednesday, January 3rd to schedule an appointment
