

# **FREE Fire-Safe Landscaping & Erosion Control Workshop**

**6-8:30 p.m.  
Wed., May 30**

**Montecito Covenant Church  
671 Cold Spring Rd., Montecito**

*The County of Santa Barbara is facilitating the workshop. For general information, call (805) 568-3428 or email [gdepinto@countyofsb.org](mailto:gdepinto@countyofsb.org).*

**Are you concerned erosion and sedimentation may affect your property?**

**Interested in creating a more fire-safe landscape at your home or property?**

### **Who Should Attend?**

This free workshop will help property owners, ranchers and agricultural operators make informed decisions about erosion and sediment control implementation, as well as fire-safe landscape planning post-Thomas Fire. You will learn about post-fire best management practices and important factors to consider when managing wildfire impacted landscapes.

### **Featured Speakers:**

- ◆ **Rich Casale** is a recently retired USDA NRCS employee who served as a NRCS Natural Resource Conservationist for nearly 43 years in California. Rich is a Certified Professional Erosion Control and Sediment Control Specialist.
- ◆ **Sabrina L. Drill** is the Natural Resource Advisor for the University of California Cooperative Extension for L.A. and Ventura counties.
- ◆ **Matthew Shapero** is the Range and Livestock Advisor for the University of California Cooperative Extension for Ventura and Santa Barbara counties.
