

Questions and Answers Posted 1-12-15

1) Q: For the waiver program, are applicants required to pick up & dispose of medication from clinics.

A: No. (Attached is a revised Waiver Program document with that requirement deleted).

2) Q: Why are tax returns required?

A: Tax returns are a requirement of all County RFPs. If for some reason you feel that you do not want to include your tax return, then you can choose to omit it and be deducted the points.

3) Q: The price list only states drug names. In order to get an exact price we need strength and quantity because some of the drug prices can vary depending on dosage. Please let me know how you want me to proceed.

A: We are only looking for strength and not quantity, but it should be per pill or per vile (see attached as an example). If you can provide a low, mid, and high strength, that should be suitable.
