Summary Text:
California Community Redevelopment Law ("CRL". California Health and Safety Code Section 33000 et seq.) requires the Redevelopment Agency to adopt a budget each fiscal year (Health and Safety Code Sec. 33606). That budget can be prepared and reviewed as part of the County’s regular annual budgeting process. The Agency is required, however, to adopt its own budget separate from the County budget. The actions set forth in this Board letter meet CRL Section 33606 requirements. Specifically, CRL requires an annual budget for the Redevelopment Agency to include all of the following: work program for coming fiscal year (Attachment 4), anticipated revenue, proposed expenditures, proposed indebtedness to be incurred (Attachment 1: Exhibit A), and an examination of previous year’s achievements compared with the Goals of the previous year’s work program (Attachment 5).

Summary of Achievements for FY 08/09
During the 2008/09 Fiscal Year the Agency completed a number of important projects. Attachment 5 includes a listing of each of the adopted work program goals for last Fiscal Year. Highlights of those achievements include:

- Completed Pardall Road Enhancements streetscape improvement project;
- Assisted in the financing of two 10-unit apartment buildings in partnership with the Housing Authority for Santa Barbara County;
- Obtained planning permits for the Trigo Loop project;
- Completed initial project of the Downtown Façade Program established in early 2007;
- Partnered with UCSB to plan new benches, shelters, and site amenities at three bus stops in Isla Vista;
- Completed comprehensive noise study for downtown Isla Vista;
- Completed design and permitting for El Colegio Phase II; and
- Completed design, permitting, and bid package for downtown parking lot.

FY 2009/2010 Work Program
The highest priority work initiatives for the coming fiscal year are identified in the list below. Attachment 4 includes the Agency’s complete FY 2009/2010 work program and goals, including the following:

- Complete design for El Embarcadero sidewalk and utility undergrounding;
- Complete design for Embarcadero Loop Storm drain project;
- Bring the Icon Housing project to decision makers for review;
- Complete parking lot construction;
- Establish partnerships to develop affordable housing projects;
- Support Coastal Commission staff review of Isla Vista Master Plan;
- RDA Agency management, and administration for PAC;
- Partner with the Santa Barbara MTD and UCSB to install three new bus shelters and benches; and
- Establish Outdoor Dining Program for downtown Isla Vista.
Agency Budget
As compared to the previous fiscal year, the proposed FY 2009/2010 budget (Attachment 1: Exhibit A) increases funding for capital projects and focuses on parking and outdoor dining in the downtown area.

CRL requires the Agency to spend no less than 20 percent of the tax increment revenue derived from the redevelopment project area to increase, improve, and preserve the supply of housing for very low-, low- and moderate-income households.

In order to implement those projects and programs outlined in the FY 2009/2010 work plan the budget includes administrative and planning funds necessary for production, improvement or preservation of low and moderate income housing.

Fiscal Analysis:
The proposed budget is funded by the Agency’s existing tax-increment revenue and reserves. The proposed budget will have no impact on the County General Fund. If approved, the budget authorizes the expenditure of $8,527,309 in the Redevelopment Operating Fund, and $1,270,000 in the Housing Fund. Individual projects included in this budget will continue to be subject to Board review based on County/Agency purchasing and bidding requirements.

Proposed Redevelopment Agency Fiscal Year 2009/2010 Sources/Uses of Funds
RESOLUTION OF THE BOARD OF DIRECTORS
OF THE COUNTY OF SANTA BARBARA
REDEVELOPMENT AGENCY, STATE OF CALIFORNIA

IN THE MATTER OF ADOPTING THE BUDGET OF THE REDEVELOPMENT AGENCY FOR THE FISCAL YEAR 2009-2010 AND DETERMINING THAT THE PLANNING AND ADMINISTRATION EXPENSES TO BE FUNDED BY THE LOW AND MODERATE INCOME HOUSING FUND ARE NECESSARY FOR THE PRODUCTION, IMPROVEMENT, AND/OR PRESERVATION OF AFFORDABLE HOUSING FOR LOW AND MODERATE INCOME HOUSEHOLDS

WHEREAS, on November 27, 1990, the Board of Supervisors of the County of Santa Barbara adopted the redevelopment plan for the Isla Vista Redevelopment Project Area; and

WHEREAS the proposed budget for the Redevelopment Agency of the County of Santa Barbara for the fiscal year 2009-2010 has been reviewed by the Agency Board of Directors (Exhibit 1); and

WHEREAS, pursuant to Section 33334.2(a) of the California Community Redevelopment Law not less than 20% of all taxes which are allocated to the Redevelopment Agency of the County of Santa Barbara ("Agency") shall be set aside by the Agency in a Low and Moderate Income Housing fund and used by the Agency for the purpose of increasing, improving and preserving the community's supply of low and moderate income housing available at affordable housing costs to people and families of low and moderate income; and

WHEREAS, pursuant to Section 33334.3(d) of the California Community Redevelopment Law it is the intent of the California State Legislature that the amount of money spent for planning and general administration from the Low and Moderate Income Housing fund not be disproportionate to the amount actually spent for the cost of production; and

WHEREAS, in order to effectively implement and enforce its housing obligations, the Agency must incur costs for tasks such as document preparation, negotiation and monitoring; and

WHEREAS, the proposed planning and administrative expenditures for the Low and Moderate Income Housing Fund are directly related to and necessary for the proposed programs and activities authorized under subdivision (e) of section 33334.2 of the California Health and Safety Code.
Now therefore be it resolved, found and determined that:

1. It is necessary to allocate $26,000 from the Low and Moderate Income Housing Fund budget for planning and administrative expenses necessary for the production, improvement, and/or preservation of low and moderate income housing during the 2009-2010 fiscal year.

2. The budget for the Redevelopment Agency of the County of Santa Barbara for the fiscal year beginning on July 1, 2009 and ending on June 30, 2010 as submitted to the Redevelopment Agency by the Executive Director (Exhibit 1), is hereby approved and adopted as the budget for the Redevelopment Agency for the fiscal year 2009-2010.

3. A copy of the budget hereby adopted, certified by the Secretary of the Redevelopment Agency, shall be filed with the Executive Director or designated representative. Copies of the certified budget shall be made available for the use of departments, offices and agencies of the Redevelopment Agency.

RESOLUTION OF THE BOARD OF DIRECTORS
OF THE COUNTY OF SANTA BARBARA REDEVELOPMENT AGENCY,
STATE OF CALIFORNIA

IN THE MATTER OF MAKING FINDINGS )
REQUIRED BY HEALTH AND SAFETY )
CODE §33445 FOR THE REDEVELOPMENT )
AGENCY FUNDING OF INFRASTRUCTURE )
AND PHYSICAL IMPROVEMENT PROJECTS )

RESOLUTION NO. ______________________

WHEREAS, pursuant to California Community Redevelopment Law, Health and Safety Code §33445, the Redevelopment Agency of Santa Barbara County ("Agency") is authorized to pay all or a part of the value of the land for and the cost of the installation and construction of any building, facility, structure, or other improvement that is publicly owned either within or without the project area that will benefit the Isla Vista Redevelopment Project Area ("Project Area") upon making certain findings pursuant to Health and Safety Code §33445; and

WHEREAS, the following projects, hereafter referred to as "Infrastructure Projects", constitute Infrastructure and Physical Improvement Projects set forth in the proposed Agency 2009-2010 budget:

- Physical alternative transportation improvements within the Project Area.
- Sidewalk construction within the Project Area,
- Parking lot improvements at 881 Embarcadero Del Mar,
- Street lighting and safety lighting within the Project Area,
- Storm drain improvements within the Project Area,
- El Colegio Road Project, Phase 2 – The widening and improvement of El Colegio Road between Storke and Los Cameros within the Project Area; and

WHEREAS, the Infrastructure Projects are a benefit to the Project Area because they are located within the Project Area, provide amenities and needed improvements to infrastructure in the Project Area, and therefore benefit the residents of the Project Area; and

WHEREAS, there is poor accessibility to alternative transportation options in the Project Area and the Project Area is in need of a number of alternative transportation improvements, which contribute to blight; and

WHEREAS, development of alternative transportation improvements would primarily benefit the Project Area by improving bicycle and pedestrian safety, making transit accessibility more convenient for the residents of the Project Area, and encouraging redevelopment of properties in the Project area; therefore facilitating the elimination of conditions of blight in the Project Area; and

WHEREAS, the Project Area lacks sidewalks in certain area of the Project Area which hinders pedestrian movement and contributes to blight in the Project Area; and

WHEREAS, the installation of sidewalks in the Project Area would be a benefit to the Project Area by providing a continuous sidewalk system throughout the Project Area, encouraging
pedestrian access, improving infrastructure in the Project Area, and facilitating the elimination of blight in
the Project Area. By improving sidewalks in downtown Isla Vista, pedestrians will be encouraged to
come to the Project Area and property owners will have an incentive to upgrade deteriorated buildings
which currently constitute an impaired investment; and

WHEREAS, the Project Area contains an insufficient supply of parking facilities and the
lack of parking in the Project Area makes it difficult for business to attract customers and do business,
which contributes to blight in the Project Area; and

WHEREAS, the construction of a public parking lot would benefit the Project Area by
providing a much needed service to Isla Vista residents and would encourage area residents from outside
the Project Area to drive to the Project Area to utilize the commercial services; and

WHEREAS, the construction of a parking lot in the Project Area would serve to mitigate
the effects of the parking deficit, therefore benefiting the project area and facilitating the elimination of
conditions of blight in the Project Area; and

WHEREAS, the current lighting in the Project Area does not provide adequate light
which discourage access to the Project Area and contribute to a condition of blight; and

WHEREAS, the proposed lighting improvements would expand the street lighting and
safety lighting and provide lighting, eliminating conditions of physical blight in the Project Area; and

WHEREAS, improvements to street and safety lighting would benefit the Project Area
by improving infrastructure and the visual appeal of Isla Vista, encouraging commercial users to shop
and spend more time in downtown Isla Vista; and

WHEREAS, El Colegio currently lacks cyclist and pedestrian connectivity between the
Project Area and University, which impedes pedestrian access and contributes to a condition of blight; and

WHEREAS, the widening and improvement of El Colegio from Storke Road to Los
Carneros would contribute to the elimination of blight by improving cyclist and pedestrian connectivity
between the Project Area and University; and

WHEREAS, the widening and improvement of El Colegio from Storke Road to Los
Carneros would provide a benefit to the Project Area by improving bicycle, pedestrian, and vehicle safety
and access and improving landscaping and transit stops; and

WHEREAS, there are no other available funding sources to pay for the Infrastructure
Projects. The County is currently facing a significant budget deficit, leaving no general funds available
to fund the Infrastructure Improvements. In addition, to the extent that there are dedicated funds for
road and transportation improvements, there are other more urgently needed public improvements and
facilities that have priority for those funds. Financing the Infrastructure Projects through an assessment
district, grants, debt service or other conventional method of financing public facilities is infeasible; and

RESOLUTION OF THE BOARD OF SUPERVISORS
OF THE COUNTY OF SANTA BARBARA, STATE OF CALIFORNIA

IN THE MATTER OF MAKING FINDINGS
REQUIRED BY HEALTH AND SAFETY
CODE §33445 FOR THE REDEVELOPMENT
AGENCY FUNDING OF INFRASTRUCTURE
AND PHYSICAL IMPROVEMENT PROJECTS

RESOLUTION NO. _____________

WHEREAS, pursuant to California Community Redevelopment Law, Health and Safety Code §33445, the Redevelopment Agency of Santa Barbara County ("Agency") is authorized to pay all or a part of the value of the land for and the cost of the installation and construction of any building, facility, structure, or other improvement that is publicly owned either within or without the project area that will benefit the Isla Vista Redevelopment Project Area ("Project Area") upon making certain findings pursuant to Health and Safety Code §33445; and

WHEREAS, the following projects, hereafter referred to as "Infrastructure Projects", constitute Infrastructure and Physical Improvement Projects set forth in the proposed Agency 2009-2010 budget:

- Physical alternative transportation improvements within the Project Area.
- Sidewalk construction within the Project Area,
- Parking lot improvements at 881 Embarcadero Del Mar,
- Street lighting and safety lighting within the Project Area,
- Storm drain improvements within the Project Area,
- El Colegio Road Project, Phase 2 – The widening and improvement of El Colegio Road between Storke and Los Cármenes within the Project Area; and

WHEREAS, the Infrastructure Projects are a benefit to the Project Area because they are located within the Project Area, provide amenities and needed improvements to infrastructure in the Project Area, and therefore benefit the residents of the Project Area; and

WHEREAS, there is poor accessibility to alternative transportation options in the Project Area and the Project Area is in need of a number of alternative transportation improvements, which contribute to blight; and

WHEREAS, development of alternative transportation improvements would primarily benefit the Project Area by improving bicycle and pedestrian safety, making transit accessibility more convenient for the residents of the Project Area, and encouraging redevelopment of properties in the Project area; therefore facilitating the elimination of conditions of blight in the Project Area; and

WHEREAS, the Project Area lacks sidewalks in certain area of the Project Area which hinders pedestrian movement and contributes to blight in the Project Area; and

WHEREAS, the installation of sidewalks in the Project Area would be a benefit to the Project Area by providing a continuous sidewalk system throughout the Project Area, encouraging pedestrian access, improving infrastructure in the Project Area, and facilitating the elimination of blight in
the Project Area. By improving sidewalks in downtown Isla Vista, pedestrians will be encouraged to come to the Project Area and property owners will have an incentive to upgrade deteriorated buildings which currently constitute an impaired investment; and

WHEREAS, the Project Area contains an insufficient supply of parking facilities and the lack of parking in the Project Area makes it difficult for business to attract customers and do business, which contributes to blight in the Project Area; and

WHEREAS, the construction of a public parking lot would benefit the Project Area by providing a much needed service to Isla Vista residents and by encouraging area residents from outside the Project Area to drive to the Project Area to utilize the commercial services; and

WHEREAS, the construction of a parking lot in the Project Area would serve to mitigate the effects of the parking deficit, therefore benefiting the project area and facilitating the elimination of conditions of blight in the Project Area; and

WHEREAS, the current lighting in the Project Area does not provide adequate light which discourages access to the Project Area and contribute to a condition of blight; and

WHEREAS, the proposed lighting improvements would expand the street lighting and safety lighting and provide lighting, eliminating conditions of physical blight in the Project Area; and

WHEREAS, improvements to street and safety lighting would benefit the Project Area by improving infrastructure and the visual appeal of Isla Vista, encouraging commercial users to shop and spend more time in downtown Isla Vista; and

WHEREAS, El Colegio currently lacks cyclist and pedestrian connectivity between the Project Area and University, which impedes pedestrian access and contributes to a condition of blight; and

WHEREAS, the widening and improvement of El Colegio from Storke Road to Los Carneros would contribute to the elimination of blight by improving cyclist and pedestrian connectivity between the Project Area and University; and

WHEREAS, the widening and improvement of El Colegio from Storke Road to Los Carneros would provide a benefit to the Project Area by improving bicycle, pedestrian, and vehicle safety and access and improving landscaping and transit stops; and

WHEREAS, there are no other available funding sources to pay for the Infrastructure Projects. The County is currently facing a significant budget deficit, leaving no general funds available to fund the Infrastructure Improvements. In addition, to the extent that there are dedicated funds for road and transportation improvements, there are other more urgently needed public improvements and facilities that have priority for those funds. Financing the Infrastructure Projects through an assessment district, grants, debt service or other conventional method of financing public facilities is infeasible; and

WHEREAS, the Project Area Redevelopment Plan provides in Section 507 that: “The Agency is authorized to financially (and otherwise) assist any public entity in the cost of public land, buildings facilities, structures or other improvements (within or outside the Project Area) where such land, buildings, facilities structures or other improvements are of benefit to the Project Area.”; and
WHEREAS, the Project Area Redevelopment Plan provides in Section 511 that: “The Agency is authorized to install and construct, or to cause to be installed and constructed, the public improvements and public utilities (within or outside the Project Area) necessary to carry out the purposes of this Plan.”; and

WHEREAS, the Isla Vista Project Area Implementation Plan identifies the following related objectives for the five-year period of Fiscal Years 2007/2011:

- To remedy, remove, and prevent physical blight and economic obsolescence in the Project Area through implementation of the Plan.
- To enhance the livability of the residential areas throughout the Project Area and the community as a whole.
- To address inadequate street improvements.
- To promote public improvement facilities which are sensitive to the unique environmental qualities of the Project Area and improve conditions of deficient infrastructure.

NOW, THEREFORE, BE IT FOUND AND RESOLVED by the County of Santa Barbara Board of Supervisors as follows:

6. The above recitals are true and correct.

7. The Infrastructure Projects will be a benefit to the Project Area.

8. There are no other reasonable means of financing the Infrastructure Projects.

9. The Infrastructure Projects will assist in the elimination of one or more blighting conditions inside the Project Area.

10. The Infrastructure Projects are consistent with the Redevelopment Plan and the Agency’s Implementation Plan, updated in April 2006 for the 2007/2011 cycle.
