Senate Bill 277 - Vaccinations

Background
- There are 20 vaccine preventable diseases. One of those diseases, measles, was eradicated in the United States in 2000.
- Due to an outbreak of measles this past year, more than 100 people in California have contracted measles. The vast majority of those who contracted the disease were not vaccinated.
- Current law requires that each child obtain required measles immunizations (MMR) or present an exemption for medical reasons or because of personal beliefs.
- With less than 95% of the student body at various schools (public and private), there is a lack of herd immunity to protect those in the population who are unable to be vaccinated (e.g. infants and those with compromised immune systems).

Proposed Legislation
- Senate Bill 277, introduced by Senators Pan and Allen, eliminates the personal belief exemption and only allows for medical exemptions to vaccination.
- This bill would impact all children who attend child care, elementary and secondary school.

Impacts
- There is no religious or personal exemption of any kind outside of medical reasons. Parents who choose not to vaccinate for non-medical reasons would need to home school their children.
- With higher rates of MMR and other vaccinations for vaccine preventable diseases, there is less disease and less risk for the entire population.
- The health of individuals and the entire community is protected when the rate of vaccination is near closer to 100%.
SENATE BILL No. 277

Introduced by Senators Pan and Allen
(Principal coauthor: Assembly Member Gonzalez)
(Coauthors: Senators Beall, Block, De León, Hall, Hertzberg, Hill, Jackson, Leno, McGuire, Mitchell, Monning, Stone, Wieckowski, and Wolk)
(Coauthors: Assembly Members Baker, Chiu, Cooper, Low, McCarty, Nazarian, Rendon, Mark Stone, and Wood)

February 19, 2015

An act to add Section 48980.5 to the Education Code, and to amend Section 120325 of, and to repeal and add Section 120365 of, the Health and Safety Code, relating to public health.

LEGISLATIVE COUNSEL’S DIGEST

(1) Existing law prohibits the governing authority of a school or other institution from unconditionally admitting any person as a pupil of any public or private elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center, unless prior to his or her admission to that institution he or she has been fully immunized against various diseases, including measles, mumps, and pertussis, subject to any specific age criteria. Existing law authorizes an exemption from those provisions for medical reasons or because of personal beliefs, if specified forms are submitted to the governing authority.

This bill would eliminate the exemption from immunization based upon personal beliefs. The bill would make conforming changes to related provisions.

(2) Existing law requires the governing board of a school district, at the beginning of the first semester or quarter of the regular school term,
to make certain notifications to parents or guardians of minor pupils including, among others, specified rights and responsibilities of a parent or guardian and specified school district policies and procedures.

This bill would require the governing board of a school district to also include in the notifications provided to parents or guardians of minor pupils at the beginning of the regular school term the immunization rates for the school in which a pupil is enrolled for each required immunization. By requiring school districts to notify parents or guardians of school immunization rates, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 48980.5 is added to the Education Code, to read:

48980.5. The notification required pursuant to Section 48980 shall also include the immunization rates for the school in which a pupil is enrolled for each of the immunizations required pursuant to Section 120335 of the Health and Safety Code.

SEC. 2. Section 120325 of the Health and Safety Code is amended to read:

120325. In enacting this chapter, but excluding Section 120380, and in enacting Sections 120400, 120405, 120410, and 120415, it is the intent of the Legislature to provide:

(a) A means for the eventual achievement of total immunization of appropriate age groups against the following childhood diseases:

(1) Diphtheria.
(2) Hepatitis B.
(3) Haemophilus influenzae type b.
(4) Measles.
(5) Mumps.
(6) Pertussis (whooping cough).

(7) Poliomyelitis.

(8) Rubella.

(9) Tetanus.

(10) Varicella (chickenpox).

(11) Any other disease deemed appropriate by the department, taking into consideration the recommendations of the Advisory Committee on Immunization Practices of the United States Department of Health and Human Services, the American Academy of Pediatrics, and the American Academy of Family Physicians.

(b) That the persons required to be immunized be allowed to obtain immunizations from whatever medical source they so desire, subject only to the condition that the immunization be performed in accordance with the regulations of the department and that a record of the immunization is made in accordance with the regulations.

(c) Exemptions from immunization for medical reasons—or because of personal beliefs.

(d) For the keeping of adequate records of immunization so that health departments, schools, and other institutions, parents or guardians, and the persons immunized will be able to ascertain that a child is fully or only partially immunized, and so that appropriate public agencies will be able to ascertain the immunization needs of groups of children in schools or other institutions.

(e) Incentives to public health authorities to design innovative and creative programs that will promote and achieve full and timely immunization of children.

SEC. 3. Section 120365 of the Health and Safety Code is repealed.

120365. (a) Immunization of a person shall not be required for admission to a school or other institution listed in Section 120335 if the parent or guardian or adult who has assumed responsibility for his or her care and custody in the case of a minor, or the person seeking admission if an emancipated minor, files with the governing authority a letter or affidavit that documents which immunizations required by Section 120355 have been given and which immunizations have not been given on the basis that they are contrary to his or her beliefs.
(b) On and after January 1, 2014, a form prescribed by the State Department of Public Health shall accompany the letter or affidavit filed pursuant to subdivision (a). The form shall include both of the following:

(1) A signed attestation from the health care practitioner that
indicates that the health care practitioner provided the parent or
 guardian of the person who is subject to the immunization
requirements of this chapter, the adult who has assumed
responsibility for the care and custody of the person, or the person
if an emancipated minor, with information regarding the benefits
and risks of the immunization and the health risks of the
communicable diseases listed in Section 120335 to the person and
to the community. This attestation shall be signed not more than
six months before the date when the person first becomes subject
to the immunization requirement for which exemption is being
sought.

(2) A written statement signed by the parent or guardian of the
person who is subject to the immunization requirements of this
chapter, the adult who has assumed responsibility for the care and
custody of the person, or the person if an emancipated minor, that
indicates that the signer has received the information provided by
the health care practitioner pursuant to paragraph (1). This
statement shall be signed not more than six months before the date
when the person first becomes subject to the immunization
requirements as a condition of admittance to a school or institution
pursuant to Section 120335.

(e) The following shall be accepted in lieu of the original form:

(1) A photocopy of the signed form.

(2) A letter signed by a health care practitioner that includes all
information and attestations included on the form.

(d) Issuance and revision of the form shall be exempt from the
rulemaking provisions of the Administrative Procedure Act
(Chapter 3.5 (commencing with Section 11340) of Part 1 of
Division 3 of Title 2 of the Government Code).

(e) When there is good cause to believe that the person has been
exposed to one of the communicable diseases listed in subdivision
(a) of Section 120325, that person may be temporarily excluded
from the school or institution until the local health officer is
satisfied that the person is no longer at risk of developing the
disease.
For purposes of this section, “health care practitioner” means any of the following:

1. A physician and surgeon, licensed pursuant to Section 2050 of the Business and Professions Code.
2. A nurse practitioner who is authorized to furnish drugs pursuant to Section 2836.1 of the Business and Professions Code.
3. A physician assistant who is authorized to administer or provide medication pursuant to Section 3502.1 of the Business and Professions Code.
4. An osteopathic physician and surgeon, as defined in the Osteopathic Initiative Act.
5. A naturopathic doctor who is authorized to furnish or order drugs under a physician and surgeon’s supervision pursuant to Section 3640.5 of the Business and Professions Code.
6. A credentialed school nurse, as described in Section 49426 of the Education Code.

SEC. 4. Section 120365 is added to the Health and Safety Code, to read:

120365. (a) Immunization of a person shall not be required for admission to a school or other institution listed in Section 120335 if the parent or guardian or adult who has assumed responsibility for his or her care and custody in the case of a minor, or the person seeking admission if an emancipated minor, files with the governing authority a letter or affidavit that documents which immunizations required by Section 120355 have been given and which immunizations have not been given pursuant to an exemption from immunization for medical reasons.

(b) When there is good cause to believe that the person has been exposed to one of the communicable diseases listed in subdivision (a) of Section 120325, that person may be temporarily excluded from the school or institution until the local health officer is satisfied that the person is no longer at risk of developing the disease.

SEC. 5. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.
