RE: SB 900 – State lands: coastal hazard removal and remediation program – SUPPORT

Dear Senator Jackson:

I am writing on behalf of the Santa Barbara County Board of Supervisors to offer our support for SB 900 State lands: coastal hazard removal and remediation program.

Senate Bill 900, the Coast Oil Well Cleanup Act, would require that the California State Lands Commission plug very old "orphaned" oil wells in California waters when the original oil company that operated the well is out of business and cannot be held responsible. It will also require an in-depth study of similarly abandoned and unused oil wells along the California coast. It is estimated that there are more than 200 of these so-called ‘legacy’ wells in California, the majority located along the Summerland and Ellwood beaches in Santa Barbara County and along the Central Coast. In addition, the bill would require the removal of coastal hazards such as wood and steel pilings, railroad iron, pipelines, wooden beams and other hazards. It would also require the monitoring and studying of the phenomenon known as natural seepage.

Furthermore, the County’s 2016 Legislative Platform includes the Oil Research and Infrastructure plank to support efforts that SB 900 intends to accomplish. For these reasons, Santa Barbara County supports SB 900. If you have questions about the Board’s position, please contact the County’s Legislative Coordinator, Joseph Toney at 805-568-2060 or jtoney@countyofsb.org.

Sincerely,

Peter Adam
Chair, Board of Supervisors

RE:  AB 1642 State Responsibility Areas: fire prevention fees – SUPPORT

Dear Assemblyman Obernolte:

I am writing on behalf of the Santa Barbara County Board of Supervisors to reiterate our support for extending the period for paying or disputing a fire prevention fee from 30 days to 60 days from the date of assessment. Our Board previously supported Assembly Bill (AB) 203 in 2015, and is again supporting the same effort now in the form of AB 1642 State Responsibility Areas (SRA): fire prevention fees.

Created by the Legislature and Governor as part of the 2011 Budget, the Fire Prevention Fee charges property owners $152.33 for each habitable structure located in a SRA, with a $35 reduction if they live within the boundaries of a local fire protection district. About 700,000 rural Californians receive a yearly Fire Prevention Fee bill, due 30 days from the date on the notice.

Due to the rural nature of those being billed, many individuals do not receive their bills in a timely manner. Additionally, many of these individuals are on fixed incomes, making it nearly impossible for them to pay their Fire Prevention Fee by the 30-day deadline.

Santa Barbara County has a large amount of SRAs, estimated at over 10,000 parcels. Increasing the payment due date of the Fire Prevention Fee from 30 days to 60 days will ensure greater compliance with the law by giving all owners of habitable structures in an SRA more time to receive their bills. AB 1642 will also give those taxpayers on fixed incomes more time to adjust their budgets.

For these reasons, Santa Barbara County supports AB 1642. If you have questions about the Board’s position, please contact the County’s Legislative Coordinator, Joseph Toney at 805-568-2060 or jtoney@countyofsb.org.

Sincerely,

Peter Adam  
Chair, Board of Supervisors
