DRAFT PROPOSED LEGISLATIVE PRINCIPLES

Principle - Community Sustainability: Economic Stability

The County supports efforts to foster communitywide sustainability by promoting economic stability and environmental stewardship through participation in the growing green economy. Accordingly, the County supports efforts to catalyze community renewal, redevelopment and reinvestment, incubate and support innovative businesses, reduce greenhouse gas emissions, incentivize energy efficiency, water conservation, and the use of renewable energy. To maintain and protect rural resources, coastal areas, and bio-diversity, the County recognizes the need to promote mutually beneficial partnerships with the public, private, and nonprofit sectors across the region. These collective efforts aim to engender healthy communities by balancing social well-being, economic prosperity, and environmental responsibility.
