ASSEMBLY BILL

No. 52

Introduced by Assembly Member Gatto
(Principal coauthor: Assembly Member Alejo)
(Coauthors: Assembly Members Chesbro and Lowenthal)

December 21, 2012

An act to amend Sections 21080.3, 21083, 21083.2, and 21104 of, and to add Sections 21073, 21074, 21080.3.1, 21083.09, 21084.2, 21084.3, and 21097 to, the Public Resources Code, relating to Native Americans.

LEGISLATIVE COUNSEL'S DIGEST

AB 52, as amended, Gatto. Native Americans: California Environmental Quality Act.

Existing law, the Native American Historic Resource Protection Act, establishes a misdemeanor for unlawfully and maliciously excavating upon, removing, destroying, injuring, or defacing a Native American historic, cultural, or sacred site, that is listed or may be eligible for listing in the California Register of Historic Resources.

The California Environmental Quality Act, referred to as CEQA, requires a lead agency, as defined, to prepare, or cause to be prepared,

and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the lead agency to provide a responsible agency with specified notice and opportunities to comment on a proposed project. ~~CEQA defines “unique archaeological resource” for the purposes of CEQA.~~ CEQA requires the Office of Planning and Research to prepare and develop, and the Secretary of the Natural Resources Agency to certify and adopt, guidelines for the implementation of CEQA that include, among other things, criteria for public agencies to following in determining whether or not a proposed project may have a significant effect on the environment.

~~The~~

This bill would specify that a project having a potential to cause a substantial adverse change in the significance of a tribal resource, as defined, to be a project that may have a significant effect on the environment. The bill would require the implementation, if feasible, of specified mitigation measures if the lead agency determines that a project will have a substantial adverse change on a tribal cultural resource. For a tribal cultural resource that is a sacred place, the bill would prohibit severe or irreparable damage to that resource, or interference with the free expression or exercise of a Native American religion unless a clear and convincing showing that the public interest and necessity so require. The bill would require a lead agency to make best efforts to avoid, preserve, and protect specified Native American resources. The bill would require the lead agency to undertake specified actions if a project may adversely affect tribal cultural resources. The bill would additionally define “unique archaeological resource” to include archaeological artifacts, objects, or sites, including those that are tribal cultural resources. consult with Native American tribes that are traditionally and culturally affiliated with the geographic area of the proposed project that have requested, in writing, to be informed by the lead agency of proposed projects in that geographic area prior to determining whether a negative declaration, mitigated negative declaration, or environmental impact report is required for a project.

The bill would authorize the Native American tribe wishing to consult the lead agency regarding a project to notify the lead agency, as specified. The bill would make the above provisions applicable to projects that have filed a notice of preparation or a notice of negative declaration or mitigated negative declaration on or after January 1, 2014. The bill would require the ~~office~~ Office of Planning and Research to revise the guidelines to include among the criteria for determining whether a proposed project has a significant effect on the environment the effects on tribal cultural resources, including sacred places. The bill would require the ~~office~~ to prepare and develop, and the secretary to certify and adopt, revisions to the guidelines relating to the identification and treatment of tribal cultural resources. By requiring the lead agency to consider these effects relative to Native Americans and to conduct additional consultations, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares all of the
2 following:
3 (a) California had the largest aboriginal population in North
4 America before contact with non-Native Americans. ~~Yet, California~~
5 ~~Native American tribes suffered the greatest losses from~~
6 ~~termination, removal, and assimilation policies, including the loss~~
7 ~~of a majority of their lands and tribal cultural resources, including~~
8 ~~sacred places. This devastation debilitated tribal religious practices~~
9 ~~and cultural identity, and threatened the survival of California~~
10 ~~Native Americans. *Spiritual integrity, community identity, political*~~
11 ~~*sovereignty, and governance processes are intertwined in the*~~
12 ~~*lifeways and identity of the California Native American tribes.*~~
13 (b) ~~Spiritual integrity, community identity, political sovereignty,~~
14 ~~and governance processes are intertwined in the lifeways and~~
15 ~~identity of the California Native American tribes.~~

1 ~~(e) California Native American tribes possess original natural~~
2 ~~rights, from time immemorial, recognized in over 200 years of~~
3 ~~federal jurisprudence, the Federal Constitution, federal and state~~
4 ~~laws and administrative policies, and state actions, including,~~
5 ~~tribal-state agreements.~~

6 ~~(d) Included in these original natural rights is the right of tribal~~
7 ~~governments to enact their own laws and be governed by them~~
8 ~~and to engage in their own cultural and spiritual practices. It is a~~
9 ~~fundamental obligation of each generation of California Native~~
10 ~~Americans to cherish and protect these rights for their children~~
11 ~~and for generations to come.~~

12 ~~(e)~~

13 ~~(b) California Native Americans have used, and continue to use,~~
14 ~~natural settings in the conduct of spiritual practices, religious~~
15 ~~observances, ceremonies, and cultural uses and beliefs that are~~
16 ~~essential elements in tribal communities. Tribes consider these~~
17 ~~sacred and cultural places, used by generations, as vital to their~~
18 ~~existence, well-being, and identity.~~

19 ~~(f) In addition to the lingering effects of historic termination,~~
20 ~~removal, and assimilation policies, the continued loss of tribal~~
21 ~~cultural resources, including sacred places and tribal lands in the~~
22 ~~past 200 years, has caused further debilitating impacts on the~~
23 ~~religious practices, cultural traditions, tribal identity, and~~
24 ~~self-governance rights of California Native American tribes.~~

25 ~~(g) To uphold California Native American tribes' original natural~~
26 ~~rights with regard to religious practices, cultural traditions, tribal~~
27 ~~identity, and self-governance, it is essential that the natural setting~~
28 ~~and essential integrity of these tribal cultural resources be protected~~
29 ~~and the sacred places be preserved.~~

30 ~~(h)~~

31 ~~(c) Traditional tribal lands were diminished to reservations and~~
32 ~~rancherias that exist today in California with local governments,~~
33 ~~state lands, federal lands, and privately owned lands located~~
34 ~~adjacent to, and in the vicinity of, tribal government reservations~~
35 ~~and rancherias. The land use decisions concerning lands adjacent~~
36 ~~to, and in the vicinity of, California Native American reservations~~
37 ~~and rancherias affect those tribal communities in terms of~~
38 ~~environmental impacts and tribal self-governance rights *with tribes*~~
39 ~~*losing a majority of their tribal cultural resources and sacred*~~
40 ~~*places.*~~

1 (d) Honoring the rights of California Native American tribes'
 2 efforts to protect the natural setting and integrity of sacred places
 3 is essential.

4 (i)

5 (e) The California Environmental Quality Act, which is the
 6 primary environmental protection law in California, does not
 7 readily or directly solicit, include, or accommodate California
 8 Native American tribes' concerns and ~~issues, which~~ issues. This
 9 has resulted in significant environmental impacts to tribal cultural
 10 resources, including sacred places and tribal government
 11 reservations and rancherias, leaving them unanalyzed and
 12 unmitigated. The result has been significant and unmitigated
 13 cumulative impacts to those resources ~~and California Native~~
 14 ~~American reservations and rancherias~~ to the detriment of those
 15 communities and California's environment.

16 (j)

17 (f) California Native American tribes are experts concerning
 18 their *traditionally and* culturally affiliated resources, tribal history,
 19 and practices concerning those resources. Tribal knowledge about
 20 the land and the resources should be included in environmental
 21 assessments pursuant to state environmental laws for projects that
 22 have a potentially significant impact or effect on those resources.

23 (k)

24 (g) State environmental law should not only take into account
 25 the scientific or archaeological value of cultural resources, but also
 26 the tribal cultural values, tribal interpretations, and culturally
 27 appropriate treatment when decisions are made concerning whether
 28 or how to approve a project that may significantly impact or affect
 29 those places and resources.

30 SEC. 2. Section 21073 is added to the Public Resources Code,
 31 to read:

32 21073. "Native American tribe" means a federally recognized
 33 Indian tribe located in California.

34 ~~SEC. 3. Section 21074 is added to the Public Resources Code,~~
 35 ~~to read:~~

36 ~~21074. (a) "Tribal cultural resource" means a resource that is~~
 37 ~~any of the following:~~

38 ~~(1) A resource listed in, or determined to be eligible for listing~~
 39 ~~in, the California Register of Historical Resources, a local register~~

1 of historical resources, as defined in subdivision (k) of Section
2 5020.1.

3 (2) A resource deemed to be significant pursuant to subdivision
4 (g) of Section 5024.1.

5 (3) A resource deemed by the lead agency after a public hearing
6 to be a tribal cultural resource based upon substantial evidence
7 presented to the lead agency.

8 (b) Tribal cultural resources include, but are not limited to, sites,
9 features, places, or objects with cultural value to descendant
10 communities, traditional cultural properties, or tribal cultural
11 landscapes consistent with the guidance of the federal National
12 Park Services' Advisory Council on Historic Preservation.

13 (c) A tribal cultural resource may also be a historic resource or
14 a unique archaeological resource.

15 (d) A tribal cultural resource does not include a resource
16 demonstrated by clear and convincing evidence to be historically
17 or culturally not significant.

18 SEC. 4. Section 21080.3 of the Public Resources Code is
19 amended to read:

20 21080.3. (a) Prior to determining whether a negative
21 declaration or environmental impact report is required for a project,
22 the lead agency shall consult with all responsible agencies, trustee
23 agencies, and affected Native American tribes. Prior to that required
24 consultation, the lead agency may informally contact any of those
25 agencies or tribes.

26 (b) In order to expedite the requirements of subdivision (a), the
27 Office of Planning and Research, upon request of a lead agency,
28 shall assist the lead agency in determining the various responsible
29 agencies and trustee agencies, for a proposed project. In the case
30 of a project described in subdivision (e) of Section 21065, the
31 request may also be made by the project applicant.

32 SEC. 5. Section 21083 of the Public Resources Code is
33 amended to read:

34 21083. (a) The Office of Planning and Research shall prepare
35 and develop proposed guidelines for the implementation of this
36 division by public agencies. The guidelines shall include objectives
37 and criteria for the orderly evaluation of projects and the
38 preparation of environmental impact reports and negative
39 declarations in a manner consistent with this division.

1 ~~(b) The guidelines shall specifically include criteria for public~~
2 ~~agencies to follow in determining whether or not a proposed project~~
3 ~~may have a “significant effect on the environment.” The criteria~~
4 ~~shall require a finding that a project may have a “significant effect~~
5 ~~on the environment” if one or more of the following conditions~~
6 ~~exist:~~

7 ~~(1) A proposed project has the potential to degrade the quality~~
8 ~~of the environment, curtail the range of the environment, or to~~
9 ~~achieve short-term, to the disadvantage of long-term, environmental~~
10 ~~goals.~~

11 ~~(2) The possible effects of a project are individually limited but~~
12 ~~cumulatively considerable. As used in this paragraph,~~
13 ~~“cumulatively considerable” means that the incremental effects of~~
14 ~~an individual project are considerable when viewed in connection~~
15 ~~with the effects of past projects, the effects of other current projects,~~
16 ~~and the effects of probable future projects.~~

17 ~~(3) The environmental effects of a project will cause substantial~~
18 ~~adverse effects on human beings, either directly or indirectly.~~

19 ~~(4) A proposed project may have a significant effect on a tribal~~
20 ~~cultural resource, including a sacred place, or a tribal reservation~~
21 ~~or rancheria community.~~

22 ~~(e) The guidelines shall include procedures for determining the~~
23 ~~lead agency pursuant to Section 21165.~~

24 ~~(d) The guidelines shall include criteria for public agencies to~~
25 ~~use in determining when a proposed project is of sufficient~~
26 ~~statewide, regional, or areawide environmental significance that~~
27 ~~a draft environmental impact report, a proposed negative~~
28 ~~declaration, or a proposed mitigated negative declaration shall be~~
29 ~~submitted to appropriate state agencies, through the State~~
30 ~~Clearinghouse, for review and comment prior to completion of the~~
31 ~~environmental impact report, negative declaration, or mitigated~~
32 ~~negative declaration.~~

33 ~~(e) The Office of Planning and Research shall develop and~~
34 ~~prepare the proposed guidelines as soon as possible and shall~~
35 ~~transmit them immediately to the Secretary of the Natural~~
36 ~~Resources Agency. The Secretary of the Natural Resources Agency~~
37 ~~shall certify and adopt the guidelines pursuant to Chapter 3.5~~
38 ~~(commencing with Section 11340) of Part 1 of Division 3 of Title~~
39 ~~2 of the Government Code, which shall become effective upon the~~
40 ~~filing of the adopted guidelines. However, the guidelines shall not~~

1 ~~be adopted without compliance with Sections 11346.4, 11346.5,~~
2 ~~and 11346.8 of the Government Code.~~

3 ~~(f) The Office of Planning and Research shall, at least once~~
4 ~~every two years, review the guidelines adopted pursuant to this~~
5 ~~section and shall recommend proposed changes or amendments~~
6 ~~to the Secretary of the Natural Resources Agency. The Secretary~~
7 ~~of the Natural Resources Agency shall certify and adopt guidelines,~~
8 ~~and any amendments to the guidelines, at least once every two~~
9 ~~years, pursuant to Chapter 3.5 (commencing with Section 11340)~~
10 ~~of Part 1 of Division 3 of Title 2 of the Government Code, which~~
11 ~~shall become effective upon the filing of the adopted guidelines~~
12 ~~and any amendments to the guidelines. However, guidelines may~~
13 ~~not be adopted or amended without compliance with Sections~~
14 ~~11346.4, 11346.5, and 11346.8 of the Government Code.~~

9 sacred place as described in paragraph (2) of subdivision (a) of
10 Section 21074, no severe or irreparable damage shall occur and
11 no interference with the free expression or exercise of a Native
12 American religion as provided in the United States Constitution
13 and the California Constitution shall occur with regard to this
14 place except on a clear and convincing showing that the public
15 interest and necessity so require.

16 (c) This section shall apply only to a project that has a notice
17 of preparation or a notice of negative declaration or mitigated
18 negative declaration filed on or after January 1, 2014.

19 SEC. 8. Section 21097 is added to the Public Resources Code,
20 to read:

21 21097. (a) A Native American tribe that is traditionally and

23 project wishing to consult with the lead agency to discuss
24 potentially feasible means by which potentially significant impacts
25 on a tribal cultural resources can be feasibly avoided or minimized
26 to less than significant, may notify the lead agency prior to the
27 public review period established by Section 21091, but no later
28 than 30 days after receipt of the lead agency's notice of
29 preparation of an environmental impact report or 20 days after
30 receipt of the lead agency's notice of a negative declaration or
31 mitigated negative declaration. The lead agency shall provide to
32 the Native American tribe copies of any environmental document
33 or technical report relied on by the lead agency. The Native
34 American tribe may request the project proponent, Native
35 American Heritage Commission, the State Office of Historic
36 Preservation, and other relevant agencies or entities to participate
37 in the consultation process and to seek mutually agreeable methods
38 of avoiding or otherwise resolving the potential adverse effects.
39 As part of the consultation process, the parties may propose

1 mitigation measures capable of avoiding or substantially lessening
2 potential significant impacts to a tribal cultural resource.

3 (b) Any mitigation measures agreed upon by the lead agency
4 and Native American tribe in the consultation shall be incorporated
5 as mitigation measures in the final environmental document and
6 fully enforceable through conditions, agreements, or measures.

7 (c) If a project may have an impact on a tribal cultural resource,
8 the lead agency's environmental document shall discuss both of
9 the following:

10 (1) Whether the proposed project has a significant impact on
11 an identified cultural resource.

12 (2) Whether feasible alternatives or mitigation measures,
13 including those measures that may be agreed to pursuant to
14 subdivision (a), avoid or substantially lessen the impact to the
15 identified tribal cultural resource.

16 (d) (1) Any information, including, but not limited to, the
17 location, nature, and use of the place, feature, site, or object that
18 is submitted by a Native American tribe regarding a tribal cultural
19 resource during the consultation process may not be included in
20 the environmental document or otherwise disclosed by the lead
21 agency or any other public agency to the public without the prior
22 consent of the tribe that provided the information. Any information
23 submitted by a Native American tribe during the consultation
24 process shall be published in a confidential appendix to the
25 environmental document unless the tribe consents to disclosure of
26 all or some of the information to the public. This subdivision is
27 not intended, and may not be construed, to prohibit the confidential
28 exchange of the submitted information between public agencies
29 that have lawful jurisdiction over the preparation of the
30 environmental document.

31 (2) This subdivision does not affect or alter the application of
32 subdivision (r) of Section 6254 of the Government Code.

33 (e) The lead agency for the proposed project may issue a permit
34 or grant an approval for a project with a significant impact on an
35 identified tribal cultural resource only if one of the following
36 occurs:

37 (1) Mitigation measures agreed to during the consultation
38 process pursuant to subdivision (b) or another agreement have
39 been incorporated into the final environmental document and
40 mitigation monitoring program.

1 (2) *The Native American tribe accepts the mitigation measures*
2 *proposed in the draft or final environmental document and*
3 *mitigation monitoring and reporting program.*

4 (3) *Consultation between the Native American tribes and the*
5 *lead agency has occurred pursuant to Section 65352.4 of the*
6 *Government Code and Section 21080.3.1.*

7 (4) *The Native American tribe has received notice of, and has*
8 *failed to comment on or reject, the proposed mitigation measures*
9 *during the public comment period established in Section 21091*
10 *and any public hearing on the project required by or held pursuant*
11 *to this division.*

12 (f) *If an agreement is not reached pursuant to this section and*
13 *if substantial evidence demonstrates that a project will cause a*
