|  COVID-19 (Novel Coronavirus 2019)   |  Measles (Rubeola)   |  Yellow Fever  |
|  Creutzfeldt-Jakob Disease (CJD) and other Transmissible Spongiform Encephalopathies (TSE)               |  Meningitis, Specify Etiology: Viral, Bacterial, Fungal, Parasitic   |  Yersiniosis   |
|  Cryptosporidiosis  |  Meningococcal Infections   |  Zika Virus Infection   |
|  Cyclosporiasis  |  Middle East Respiratory Syndrome (MERS)   |   |
|  Cysticercosis or Taeniasis  |  Mumps   | <b>Local Surveillance</b>   |
|  Dengue Virus Infection  |  Novel Virus Infection with Pandemic Potential   |  Vaping-Associated Pulmonary Injury (VAPI) / E-cigarette, or Vaping, Product Use-Associated Lung Injury (EVALI)                    |
|  Diphtheria  |  Paralytic Shellfish Poisoning   |   |
|  Domoic Acid Poisoning (Amnesic Shellfish Poisoning)   |  Paratyphoid Fever   |  TST Reactors (age <3 years only)  |
|  Ehrlichiosis  |  Pertussis (Whooping Cough)  |   |
|  Encephalitis, Specify Etiology: Viral, Bacterial, Fungal, Parasitic                                   |  Plague, Human or Animal   |  <b>OCCURRENCE OF ANY UNUSUAL DISEASE</b> (Including diseases not listed in §2500. Specify if institutional and/or open Community) |
|  Escherichia coli: shiga toxin producing (STEC) including E. coli O157                                 |  Poliovirus Infection  |   |
|  Flavivirus Infection of undetermined species  |  Psittacosis   |  <b>OUTBREAKS OF ANY DISEASE</b>   |
|  Foodborne Disease: (2 or more cases from separate households with same suspected source)              |  Q Fever   |   |
|  Giardiasis  |  Rabies, Human or Animal   |   |
|  Gonococcal Infections   |  Relapsing Fever   |   |
|  Haemophilus influenzae, invasive disease (<5 years only)  |  Respiratory syncytial virus-associated deaths in laboratory-confirmed cases less than five years of age |   |
|  Hantavirus Infections   |  Rickettsial Disease (non-Rocky Mountain Spotted Fever, including Typhus and Typhus like illnesses)      |   |
|  Hemolytic Uremic Syndrome   |  Rocky Mountain Spotted Fever  |   |
|  Hepatitis A (Acute infection)   |  Rubella (German Measles)  |   |
|  Hepatitis B (specify acute, chronic, or perinatal)  |  Rubella Syndrome, Congenital  |   |
|  Hepatitis C (specify acute, chronic, or perinatal)  |  Salmonellosis (Other than Typhoid Fever)  |   |
|  |  Scombroid Fish Poisoning  |   |

### REPORTABLE NON-COMMUNICABLE DISEASES AND CONDITIONS

**Conditions Impairing Driving Capacity** (pursuant to H&S 103900)

Lapses of consciousness or control. Alzheimer's disease or other conditions which may impair the ability to operate a motor vehicle safely.

It shall be the duty of every health care provider, knowing of or in attendance on a case or suspected case of any of the diseases or conditions listed above to report to the local health officer for the jurisdiction where the patient resides. Where no health care provider is in attendance, any individual having knowledge of a person who is suspected to be suffering from one of the diseases or conditions listed below may make such a report. "Health care provider" encompasses physicians, surgeons, veterinarians, podiatrists, nurse practitioners, physician assistants, registered nurses, nurse midwives, school nurses, infection control practitioners, medical examiners, coroners, dentists and chiropractors.

**This updated list reflects reportable diseases and conditions as of 03/2020**
