APPEALS

Decisions of the BAR may be appealed to the Planning Commission by the applicant or any other interested party within 10 days of the final BAR action. A Land Use Permit for the project cannot be issued until the appeal period has expired.

EXPIRATION Board of Architectural Review approvals expire the date the associated development permit (e.g., Coastal Development Permit, Development Plan), including time extensions, expires. Where no development permit exists, Board of Architectural Review approvals expire two years from the date of approval, except the Director may grant an extension of the approval if an active development application is being processed by Planning and Development.

GRADING

For projects requiring Grading Plan approval, conceptual BAR review must occur before a land use or coastal development permit may be processed.
