

**Plumbing Requirements**

- Ensure all water heaters and drain lines are in front of the waste water.
- Ensure all waste water lines are in front of the waste water.
- Ensure all waste water lines are in front of the waste water.
- Ensure all waste water lines are in front of the waste water.
- Ensure all waste water lines are in front of the waste water.

**Mechanical Requirements**

(Final Exam: Interior Design Requirements)

- Ensure all mechanical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all mechanical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all mechanical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all mechanical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all mechanical systems are in good working order and meet the requirements set forth in the owner's manual.

**Smoke Detector / Carbon Monoxide Alarms**

- Ensure all smoke detectors and carbon monoxide alarms are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all smoke detectors and carbon monoxide alarms are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all smoke detectors and carbon monoxide alarms are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all smoke detectors and carbon monoxide alarms are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all smoke detectors and carbon monoxide alarms are in good working order and meet the requirements set forth in the owner's manual.

**Roofing / Attic Access**

- Ensure all roofing materials are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all roofing materials are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all roofing materials are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all roofing materials are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all roofing materials are in good working order and meet the requirements set forth in the owner's manual.

**Receptacles & Arc-Fault/Tamper/GFCI Requirements**

- Ensure all receptacles and arc-fault/tamper/GFCI devices are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all receptacles and arc-fault/tamper/GFCI devices are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all receptacles and arc-fault/tamper/GFCI devices are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all receptacles and arc-fault/tamper/GFCI devices are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all receptacles and arc-fault/tamper/GFCI devices are in good working order and meet the requirements set forth in the owner's manual.

**Electrical Requirements (NEC)**

- Ensure all electrical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all electrical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all electrical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all electrical systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all electrical systems are in good working order and meet the requirements set forth in the owner's manual.

**Energy Conservation Requirements**

- Ensure all energy conservation systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all energy conservation systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all energy conservation systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all energy conservation systems are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all energy conservation systems are in good working order and meet the requirements set forth in the owner's manual.

**California Green Building Standards Code**

- Ensure all California Green Building Standards Code are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all California Green Building Standards Code are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all California Green Building Standards Code are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all California Green Building Standards Code are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all California Green Building Standards Code are in good working order and meet the requirements set forth in the owner's manual.

**Safety Glazing**

- Ensure all safety glazing is in good working order and meet the requirements set forth in the owner's manual.
- Ensure all safety glazing is in good working order and meet the requirements set forth in the owner's manual.
- Ensure all safety glazing is in good working order and meet the requirements set forth in the owner's manual.
- Ensure all safety glazing is in good working order and meet the requirements set forth in the owner's manual.
- Ensure all safety glazing is in good working order and meet the requirements set forth in the owner's manual.

**Wild-Urban Interface Area Construction**

- Ensure all Wild-Urban Interface Area Construction are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all Wild-Urban Interface Area Construction are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all Wild-Urban Interface Area Construction are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all Wild-Urban Interface Area Construction are in good working order and meet the requirements set forth in the owner's manual.
- Ensure all Wild-Urban Interface Area Construction are in good working order and meet the requirements set forth in the owner's manual.
