SECTION 1.0 INTRODUCTION

1.1 PURPOSE

The purpose of the South County Board of Architectural Review (SBAR) is to encourage development that exemplifies the best professional design practices so as to enhance the visual quality of the environment, benefit surrounding property values, and prevent poor quality of design. The formation of a local (South County) board of architectural review provides opportunities for increased public and community participation in local design issues and thereby opportunities for more efficient resolution of local issues.

These bylaws and guidelines establish the rules and procedures that govern both the SBAR members and the SBAR meetings in order to ensure uniformity of procedure, fairness to the public and interested parties, and compliance with legal requirements in matters heard by the SBAR. These guidelines are also intended to assist the public to understand and participate in the design review process.

1.2 AUTHORITY

The BAR, originally known as the Architectural Review Board, was established by the County Board of Supervisors in April of 1947. In 1979, the Board of Supervisors adopted Ordinance No. 2188 that added the Board of Architectural Review Administrative Regulations to the Santa Barbara County Code (Chapter 2, Article V, §§ 2-33.1 through 2-33.16), thus codifying the BAR's purpose, jurisdiction, and duties.

On November 22, 2005, the County Board of Supervisors adopted Ordinance #4584 creating area boards of architectural review for the South County (SBAR), Central County (CBAR) and North County (NBAR), in addition to the Montecito BAR originally created in 2002, in order to improve access of applicants and architects to conveniently located boards of review. The effectiveness of the new boards will be evaluated by the Board of Supervisors in 2008.

1.3 GOALS

The SBAR is guided by a set of general goals that define the major concerns and objectives of its review process. These goals are to:

- To ensure good quality architecture compatible with community standards.
- To ensure that development and building design is consistent with adopted community design standards;
- To promote high standards in architectural design and the construction of

aesthetically pleasing structures so that new development does not detract from existing neighborhood characteristics;

- To encourage the most appropriate and efficient use of land;
- To promote visual interest throughout the county through the preservation of public scenic, ocean and mountain vistas, creation of open space areas, and providing for a variety of architectural styles; and
- To preserve creek areas through restoration and enhancement, and discourage the removal of significant trees and foliage.

SECTION 2.0 COMPOSITION

2.1 MEMBERS

The SBAR consists of seven members with the following makeup:

Three members are required to be licensed architects. These members must reside in the county but need not live within the district of the appointing supervisor or within the boundaries of the SBAR.

The four remaining members must reside within the boundaries of the SBAR and must be “skilled in reading and interpreting architectural drawings and able to judge the effects of a proposed building, structure, or sign upon the desirability, property values, and development of the surrounding area.” At least two of these members must be licensed landscape architects.

2.2 TERM OF OFFICE, APPOINTMENT OF MEMBERS, VACANCIES AND REMOVAL OF MEMBERS

SBAR members are appointed to four- year terms that coincide with their appointing supervisor’s term. Members serve until the Board of Supervisors appoints their successors. Two members are appointed by the 1st district supervisor, three members by the 2nd district supervisor and two members by the 3rd district supervisor, with all members approved by the Board of Supervisors. SBAR members appointed as of January 2006 may have terms shorter than four years in order to align the SBAR member appointments with those of the appointing Board of Supervisors’ member as follows:

January 2006:

- Appointments for three years for two members by the 1st district;
- Appointments for one year for three members by the 2nd district;
- Appointments for three years for two members by the 3rd district.

January 2007: Appointments for four years for three members by the 2nd district.

January 2009: Appointments for two members by the 3rd district [at this point the terms for the 3rd district are aligned] and appointments two members by the 1st district [at this point the terms of these appointments are aligned].

Vacancies, other than by expiration of terms, shall be filled by appointment for the remainder of the term by the same method as for the original appointment.

A member of the SBAR may be removed or a term may be changed by a three-fifths vote of the Board of Supervisors.

2.3 ELECTION OF OFFICERS

As soon as practical following the first day of January of every year, the SBAR shall elect a chairperson and vice-chairperson.

2.4 QUORUM

Four members, two of whom shall be either licensed architects or licensed landscape architects, shall constitute a quorum. No conceptual, preliminary or final action may be taken unless a quorum votes on the motion.

2.5 SUBCOMMITTEES

To better manage lengthy agendas, the SBAR may decide to divide into subcommittees to review projects. However, major projects (e.g. projects with community-wide implications, large commercial/industrial projects, and large subdivisions) must be reviewed by the entire SBAR (or quorum). In addition, the subcommittees do not have voting authority, so that any tentative decision of a subcommittee must be confirmed by the entire Board (or quorum).

2.6 BAR SECRETARY

A designee of the Director of Planning and Development serves as Secretary of the SBAR (see Section 4.9 for a description of the duties of the Secretary).

SECTION 3.0 GENERAL INFORMATION

3.1 SBAR JURISDICTION AND EXCEPTIONS

(1) Zoning clearance, sign certificates of conformance, land use permits, or coastal development permits for any development or use located east of the City of Goleta, including Isla Vista, and outside of the Montecito planning area as designated by the Montecito community plan, requiring BAR approval under Articles I through III of Chapter 35 of this Code shall not be issued by the planning and development department until final BAR approvals have been obtained from the SBAR. The powers and duties shall also include those given to the BAR in Articles I, II and III for projects located outside of the Montecito planning area as designated by the Montecito community plan.

(2) County projects (projects proposed by any entity governed by the Board of Supervisors or by an entity whose governing body is appointed by the Board of Supervisors) located east of the City of Goleta and outside of the Montecito planning area as designated by the Montecito community plan, which exceed fifty thousand dollars in estimated construction costs may be reviewed by the SBAR and a recommendation must be made. The decision-maker for county projects may require BAR approval.

Final approval by the SBAR is required prior to the approval of a development permit for the following:

- All new structures, additions to structures and signs located on property subject to the D-Design Control Overlay District;
- All new structures, additions to structures and signs within the Summerland Planning Area;
- All new structures, additions to structures and signs in Mission Canyon Planning Area;
- All new development along the Hollister Avenue corridor of the Goleta Planning Area, East of the City of Goleta;
- All new structures and additions to structures that are subject to the Ridgeline and Hillside Development Guidelines;
- All projects that require a Modification (absent a Development Plan or Conditional Use Permit);

- All projects that require a Development Plan;
- Any structure where BAR review is required as specifically provided under the applicable zoning district regulations;
- Any projects where BAR review is specified by action of the Board of Supervisors, Planning Commission, or the Zoning Administrator;
- Signs covered by the Article I Sign Regulations or as specified by action of the Board of Supervisors, Planning Commission, or the Zoning Administrator;
- All new structures, additions to structures and signs on lots adjacent to the ocean;
- All new walls of any height when the design is integral to new structures, remodels or additions to structures requiring architectural review; and,
- Any development proposed by the County of Santa Barbara where construction costs exceed \$50,000.00.

The following developments are exempt from BAR review:

- Interior alterations;
- Decks;
- Swimming pools, hot tubs, and spas;
- Fences or walls six feet or less in height and gateposts of eight feet or less in height, that are not considered integral to the design of a structure (e.g., perimeter fences);
- Solar panels located on roofs or on the ground, except those proposed in association with structures requiring BAR review; and,
- Any other change to an existing structure determined to be minor by the Director of Planning & Development.

3.2 MEETING DATES AND LOCATION

The SBAR shall hold a minimum of one regular meeting each month. A special meeting may be called at any time by the Chairman of the SBAR or by a majority of the members of the SBAR. The SBAR typically meets every three weeks on Fridays with the consent agenda beginning at 8:30 A.M. and the regular agenda beginning at 9:00 A.M. If a holiday falls on a normal meeting date, the meeting will be held on the following Friday or at the discretion of the SBAR. Occasionally there is a need to

cancel a regular meeting or to hold a special meeting. Dates, times and locations of such meetings shall be posted in the usual manner in accordance with Government Code §54950 et seq. (the Ralph M. Brown Act).

Meetings are typically held in Room 17 of the Santa Barbara County Engineering Building located at 123 East Anapamu Street, Santa Barbara, CA 93101.

3.3 APPLICATIONS AND FILING

South County: Planning & Development, Zoning Counter
 Santa Barbara County Engineering Building
 123 East Anapamu Street, Santa Barbara, California

North County: Planning & Development, Zoning Counter
 624 Foster Road, Suite C, Santa Maria, California

Hours: 8:30 a.m. - 12:00 p.m.;
 1:00 p.m. - 4:30 p.m.;
 Monday through Friday

Applications must be submitted in person (mailed applications are not accepted) to either of the addresses listed above no later than 4:30 p.m. on Fridays, 3 weeks prior to the requested meeting date. Agendas may close earlier based on the number of applications received. Only complete applications will be accepted; no partial submittals will be accepted or scheduled. BAR applications and submittal requirements are available at Planning & Development at the addresses listed above.

3.4 AGENDA ORGANIZATION

The BAR agendas are organized as follows:

- Public Comment

- Administrative Agenda
 - a) Agenda Status Report
 - b) Approval of minutes
 - c) Staff updates
 - d) Consent Agenda

- Standard Agenda
 - a) Projects identified by the county as priority projects
 - b) Commercial, industrial and large projects
 - d) All other projects:

Mission Canyon/Santa Barbara
Hope Ranch
Isla Vista/Goleta
Summerland/Carpinteria

- Ex-Agenda Items

3.5 NOTICING

The SBAR agenda is posted for public review on the bulletin board at the Planning & Development reception areas at the following locations a minimum of 72 hours prior to each meeting:

123 East Anapamu Street, Santa Barbara, CA 93101

624 Foster Road, Suite C, Santa Maria, CA 93455

The agenda and minutes of past meetings are also available on the Internet at <http://www.countyofsb.org/plandev/bar/default.html>.

Community groups and interested members of the public included on Planning & Development's SBAR distribution list will be sent a copy of the agenda typically one week prior to the agenda date. Requests to be added to the distribution list for agendas should be sent to Planning & Development, attention SBAR Secretary, 123 East Anapamu Street, Santa Barbara, CA 93101. Agendas are also available by contacting the SBAR Secretary at 568-2000 or by e-mail to the website listed above.

Notice of the initial SBAR hearing on projects located within the Summerland Community Plan area is mailed to property owners located within 100 feet of the exterior boundaries of the project site at least ten days prior to the hearing. Individuals may also request mailed notice of SBAR hearings on specific properties by contacting the SBAR Secretary.

3.6 FEES

Application fees for projects considered by the SBAR are set by resolution of the Board of Supervisors. Information on fees may be obtained from Planning & Development.

SECTION 4.0 MEETING CONDUCT

4.1 ROBERT'S RULES OF ORDER

The SBAR has adopted Robert's Rules of Order for the formal conduct of meetings. Robert's Rules of Order shall govern the conduct of meetings unless otherwise provided by these bylaws. However, the general meeting procedures tend to be less formal.

4.2 BROWN ACT

Pursuant to the Ralph M. Brown Act (Government Code Section 54950 et seq.), all meetings of the SBAR, including study sessions and workshops, must be open and public. This means that a quorum of SBAR members shall only discuss SBAR business in a public meeting. Furthermore, meeting agendas shall be posted in a public place at least 72 hours in advance of the hearing and topics shall be limited to those on the agenda.

4.3 PUBLIC COMMENT

A public comment period is available to all members of the public to discuss issues of concern with the SBAR regarding items not on the agenda. However, such issues should be within the jurisdiction of the SBAR.

4.4 DISCUSSIONS OUTSIDE OF REGULARLY NOTICED MEETINGS

Private discussions between applicants and individual SBAR members, or groups of SBAR members, do not reflect the consensus of the entire SBAR and may not be construed as an interpretation of the SBAR policies. SBAR members shall disclose any such discussions at regularly scheduled meetings. Such discussions may not involve a quorum of the SBAR members.

4.5 AGENDA MANAGEMENT

The primary role of the chair of the SBAR is to conduct the meeting so that the work of the SBAR may reasonably be completed within the allotted time. To this end, the SBAR Chairperson should coordinate with the SBAR Secretary to limit the number of items scheduled for particular SBAR agendas in order to manage the length of the meeting.

4.6 ABSTENTION ON CONTINUED ITEMS

An SBAR member shall not vote or comment on a continued project if the member was not present during consideration of the project at the most recent meeting at which the project was considered unless the member has reviewed the plans and read the minutes of the relevant portions of that meeting. An exception to this may be made when the project is still undergoing conceptual review.

An applicant may request, prior to the start of the applicant's presentation at a meeting of the SBAR that a member or members abstain from voting or commenting on their project. Any members' expression of intent to abstain shall also occur prior to the start of the applicant's presentation.

If enough members abstain under this policy such that quorum no longer exists, (1) the project shall be continued to a subsequent meeting so that a quorum of eligible members may be present, or (2) the applicant can withdraw all of the requests for abstention and waive any objection, or (3) previously abstaining SBAR members may withdraw their abstentions.

4.7 EX-AGENDA ITEMS

Notices, posting, and action as may be required on ex-agenda items shall be in compliance with the Brown Act. This includes, but is not limited to, a determination by a two-thirds vote of the members present at the meeting, or, if less than two-thirds of the members are present, a unanimous vote of those members present, that there is a need to take immediate action and that the need for action came to the attention of the SBAR subsequent to the agenda being posted as specified in Section 4.2. Any motion regarding an ex-agenda item will be accompanied by distribution of a written statement, to be included in the record, stating the facts upon which it can be determined that the need to take action arose after the agenda was published and posted. If it is unfeasible to present such a written statement of reasons, the secretary shall include in the minutes of the meeting a statement of the reasons for the SBARs determination.

4.8 CONFLICT OF INTEREST

Members must comply with all regulations prohibiting participation by officials with conflicts of interest. If a member has a conflict of interest for an application that is before the SBAR, the member must step down and not participate in either the review or presentation of the application nor be counted for purposes of a quorum.

If a member has participated in a competition for a project requiring review by the SBAR, the member is disqualified from acting on the project, and shall not be counted for the purpose of a quorum.

4.9 PLANNING & DEVELOPMENT STAFF SUPPORT

Planning & Development staff will assist the SBAR and the general public through the design review process. Any staff comments should be stated at the beginning of review of each agenda item following the presentation by the applicant.

Planner support at the SBAR meetings includes a Board Assistant (typically designated as the SBAR Secretary) and a designated BAR planner. The Board Assistant responsibilities include scheduling SBAR items, finalizing agendas and minutes,

responding to agenda questions and organizing the meetings. The primary function of the designated BAR planner is to provide technical support to the SBAR on planning issues as they relate to project design (e.g., ordinance and policy requirements, SBAR findings, local design guidelines) and to provide an interface between the SBAR and other decision-makers. The BAR planner will also provide project planners with clarification on the SBARs actions and the underlying intent of their comments, suggestions or conditions regarding specific projects.

Planners processing large and/or controversial projects (e.g., multi-residential unit developments, new commercial/industrial projects or major revisions or additions to existing commercial/industrial structures, projects requiring extensive grading or topographic alteration, projects that are potentially inconsistent with policy/ordinance requirements) are required to attend the SBAR meetings when the project is being considered in order to assist the SBAR in their understanding of the project. If a planner is unable to attend a SBAR meeting, the designated BAR planner shall be in attendance. The project planner shall prepare written comments for the designated BAR planner prior to the SBAR meeting. The comments should detail any potential ordinance or policy inconsistencies or areas of concern, provide information on previous SBAR meetings (if any) and any other information that will assist the designated BAR planner.

Written comments on smaller projects are required only when the project is inconsistent with policy or ordinance requirements or the planner has areas of concern that they would like the SBAR to address. If the designated BAR planner does not receive written comments prior to the SBAR meeting, it shall be assumed that there are no issues. In the case of applications for a Modification, the project planner will alert the SBAR and the designated BAR planner that a specific SBAR finding is required for project approval.

4.10 ATTENDANCE OF BOARD MEMBERS

If a member cannot attend a meeting, it is the responsibility of that member to contact the SBAR Secretary at the earliest possible opportunity prior to the meeting date.

SECTION 5.0 PROCEDURES

SBAR review begins with the submittal of a BAR application and fee. Typically a project is initially reviewed by the SBAR at a conceptual level. Once the project is reviewed by staff, the Zoning Administrator or the Planning Commission, as appropriate, and the project appears to be consistent with county plans and policies, then the project is authorized by staff to proceed to either preliminary and/or final approval by the SBAR. Permits for actual development may not be issued until the SBAR has granted final approval and the appeal period has expired without the filing of an appeal. Final decisions of the SBAR may be appealed to the Planning Commission (see Section 5.7).

5.1 LEVELS OF REVIEW

There are different levels of review a project typically undergoes as it progresses through the design review process (e.g., conceptual, preliminary, final, revised final). Some projects may qualify to be placed on the Consent Agenda. Specific submittal requirements for each level of review are available at Planning & Development.

Conceptual Review

Conceptual review provides an initial review of a project when it is still in the early stages of design development. This allows the applicant and the SBAR an opportunity to informally discuss a project that will be subsequently submitted to the county. Applicants should bring sketches and/or conceptual drawings, including sections and three-dimensional renderings, and should have completed site studies that address various aspects of site design (e.g., general massing of buildings, grading, access, landscaping concepts). Conceptual review considers broad issues such as site planning, general architectural style, and the project's relationship to its site and the surrounding neighborhood. No formal action is required to be taken by the SBAR (except for projects located within the Summerland Planning Area), however, comments are made that give the applicant general direction for future review. It is not, however, the purpose of conceptual review for the SBAR to design a project, but only to recommend ideas and alternatives for the applicant to consider and pursue.

All projects are strongly encouraged to begin the design review process at the conceptual level, especially new buildings or substantial remodels or additions to existing buildings that would alter the character of the existing design (including height increases). Projects that are going through of the Pre-application Assessment process are required to submit for conceptual review.

The SBAR may determine during the conceptual review that a site visit should be conducted by the SBAR as a whole or a subgroup of SBAR members (not involving a quorum), and/or that the preparation of a landscape plan is necessary.

Preliminary Review

Preliminary review is a formal review of an application prior to preparation of working drawings. An application for preliminary review will only be accepted if a development application for the project has been submitted to Planning & Development. Projects usually obtain preliminary approval prior to progressing to the final review.

Preliminary approval is the most important step in the approval of plans. This step determines the site plan configuration and design that must be followed in preparing the subsequent working drawings.

All significant elements of the project's appearance, landscaping and site and/or building orientation must be found to be consistent with the applicable SBAR findings and guidelines in order to receive approval at this level of review.

Final Review

Final review is a formal review of completed working drawings excluding electrical, plumbing, mechanical and structural drawings unless components of these plans would affect the exterior of the building. All details, color samples, door hardware, fenestration and exterior lighting fixtures should be included in the plans submitted for final review. The final plans will be approved only if they are in substantial conformance with the plans given preliminary approval. If substantial changes to the plans are proposed at this stage by the applicant, a new preliminary approval may be required.

Revised Final

Revised final review occurs when a substantial revision (e.g., grading, orientation, materials, height) to a project is proposed after final SBAR approval has been granted. Plans submitted should include all information on drawings that reflect the proposed revisions. If the revisions are not clearly delineated, they cannot be construed as approved.

Consent Agenda

The purpose of the consent agenda is to expedite the review of minor projects, minor changes to approved preliminary plans, or projects that have been reviewed and approved by local neighborhood architectural review committees. Applicants are not required to make a presentation of the project, however, they are encouraged to attend the meeting in case questions arise and/or the project is moved to the regular agenda. The SBAR may move an item from the consent agenda to the regular agenda to be specifically considered by the BAR due to public interest and/or major project issues. The SBAR may also direct that some projects or portions of projects be placed on the consent agenda.

5.2 PRESENTATION OF PROJECTS

All levels of review with the exception of the consent agenda require the presentation of the project by the applicant or the applicant's representative. Items on the regular agenda that do not have a representative will be continued to a later hearing or removed from the agenda. The applicant or representative will be responsible for rescheduling the project if the project is removed from the agenda.

5.3 PUBLIC TESTIMONY

Members of the public attending SBAR meetings are encouraged to present testimony on agenda items. At the appropriate time, the SBAR Chair will ask for public testimony, and will recognize those persons desiring to speak. A copy of any written statements read by a member of the public shall be given to the SBAR Secretary. All speakers should indicate their position either for or against the project, and should provide all pertinent facts within their knowledge, including the reasons for their position. Testimony should relate to the design issues of the project and the findings upon which the SBAR must base its decision. An interested party who cannot appear at a hearing may write a letter to the SBAR indicating their support of or opposition to the project, including their reasoning and concerns. The letter will be included as a part of the public record.

5.4 CONTINUANCES, POSTPONEMENTS, AND ABSENCES

A continuance is the carrying forward of an item to a future meeting. The applicant may request continuance of a project to a specified date if additional time is required to respond to comments or if they will be unable to attend the meeting. This is done either during the SBAR meeting or by calling the SBAR Secretary prior to the scheduled meeting so that the request may be discussed as part of the Agenda Status Report at the beginning of the meeting.

5.5 SITE VISITS

Site visits to proposed project locations shall be performed by the SBAR as a whole or a subgroup of SBAR members as shown below. When four or more members attend the same site visit, it is considered as a formal meeting of the SBAR such that notice of the site visit must be posted 72 hours prior to the visit and the public must be able to attend. The number of members specified in the following paragraphs is considered to be a minimum. Additional members are always encouraged to attend. Permission to enter private property must be obtained from either the owner or authorized agent prior to the site visit.

A site visit shall be conducted by four or more SBAR members for projects listed below; at least one of the members participating in the site visit shall be a SBAR member appointed by the Supervisor for the district in which the project is located. A minimum of four SBAR members present at the site visit shall be part of any quorum present at any subsequent vote by the SBAR to approve the proposed project.

- All new commercial and industrial projects with a development area or floor area of 15,000 square feet or greater.
- Additions to commercial and industrial projects where the area of the new development or the new floor area is 10,000 square feet or greater, or, when the additional development area or floor area is added to the existing development area or floor area, the total development area or floor area equals or exceeds 15,000 square feet.
- Residential projects containing 10 or more units, or would involve grading of 5,000 or more cubic yards combined cut and fill.
- Projects that engender substantial community interest as determined by the SBAR.

A site visit will be conducted by a SBAR member appointed by the Supervisor for the district in which the project is located for the following:

- All new commercial and industrial projects with a development area or floor area equal to or greater than 5,000 square feet but less than 15,000 square feet.
- Additions to commercial and industrial projects where the area of the new development or the new floor area is greater than or equal to 5,000 square feet but less than 10,000 square feet, or, when the additional development area or floor area is added to the existing development area or floor area, the total development area or floor area is equal to or exceeds 5,000 square feet but is less than 15,000 square feet.
- Residential projects where the number of units is five or greater but less than 10, or would involve grading equal to or greater than 1,500 cubic yards combined cut and fill but less than 5,000 cubic yards combined cut and fill.
- Any residential project that would impact slopes of 30 percent or greater.
- Any project where a request for a site visit has been made by a neighbor adjacent to the project site (including properties separated by a street) or where a petition signed by 10 residents of the county requesting a site visit has been submitted, unless a majority of the SBAR determines during a noticed, public hearing that a site visit is not required in the specific instance.

The SBAR may continue a project if, after their initial review, they decide that a site visit is warranted. This decision may be based on review of the plans, knowledge of the area, or other factors as well as public or planner concerns. In such cases the SBAR may choose to visit a site as an entire board or may designate a member(s) of the SBAR to perform the site visit.

5.6 TIME LIMITS ON APPROVALS AND TIME EXTENSIONS

The final approval of a project by the SBAR shall expire two years from the date of approval, except that the Director of Planning & Development or designee may grant an extension of the approval if an active development application is being processed by Planning & Development.

5.7 APPEALS OF BAR DECISIONS

The final approval or denial of a project by the SBAR may be appealed to the County Planning Commission by a person adversely affected by the decision. A letter stating the reasons for the appeal, along with the appropriate fee, must be filed with Planning & Development within the ten days following the final action. If the tenth day falls on a day that the Planning & Development offices are closed, the appeal period is extended until 5 p.m. on the following business day. Planning & Development will notify the SBAR as to the scheduled date of hearing on the appeal. The SBAR will designate a member to attend the hearings on the appeal. The decision of the Planning Commission of an appeal of a decision by the SBAR may be appealed to the Board of Supervisors. An application stating the reasons for the appeal, along with the appropriate fee, must be filed with the Clerk of the Board within the ten days following the final action.

SECTION 6.0 DESIGN REVIEW PROCESS

6.1 ASPECTS CONSIDERED IN REVIEW

The BAR's review shall include:

- Height, bulk, scale and area coverage of buildings and structures and other site improvements.
- Colors and types of building materials and application.
- Physical and architectural relation with existing and proposed structures on the same site and in the immediately affected surrounding area.
- Site layout, orientation, and location of buildings, and relationship with open areas and topography.
- Height, materials, colors, and variations in boundary walls, fences, or screen planting.
- Location and type of existing and proposed landscaping.
- Appropriateness of sign design and exterior lighting to the site and surrounding area.

6.2 REQUIRED FINDINGS FOR APPROVAL

In order to grant final approval to a project, County Code Section 2.33.15 requires the BAR to determine whether the buildings, structures, and signs are appropriate and of good design in relation to other buildings, structures, and signs, on-site or in the immediately affected area. Such determination shall be based on the following findings, as well additional findings required pursuant to the County Zoning Ordinances (Article II Coastal Zoning Ordinance Section 35-184.6, Article III Inland Zoning Ordinance Section 35-329.6,):

- Overall building shapes, as well as parts of any structure (buildings, walls, fences, screens, towers or signs) are in proportion to and in scale with other existing or permitted structures on the same site and in the vicinity surrounding the property.
- Mechanical and electrical equipment is well integrated in the total design concept.
- There is a harmonious palette of colors.
- A limited number of materials will be on the exterior face of the building or structure.
- The project demonstrates a harmonious relationship with existing and proposed

adjoining developments, avoiding excessive variety and monotonous repetition, but allowing similarity of style, if warranted.

- Site layout, orientation, and location of structures, buildings, and signs are in an appropriate and well-designed relationship to one another, and to the environmental qualities, open spaces and topography of the property.
- Adequate landscaping is provided in proportion to the project and the site with due regard to preservation of specimen and landmark trees, existing native vegetation, selection of planting which is appropriate to the project and its environment, and adequate provisions have been made for maintenance of all planting.
- Signs, including their lighting, are well designed and are appropriate in size and location.
- All visible onsite utility services are appropriate in size and location.
- All exterior site, structure and building lighting is well-designed and appropriate in size and location.
- There is harmony of material, color, and composition of all sides of a structure or buildings.
- Consistency and unity of composition and treatment of exterior elevation.
- The proposed development is consistent with any additional design standards as expressly adopted by the Board of Supervisors for a specific local community, area, or district.

If the SBAR cannot make these findings, then they must either continue the project so that it can be revised, or deny the project.

The county zoning ordinances allow in some instances minor modifications of zone district setback regulations, parking, height requirements or zoning development standards where, because of existing site conditions, a minor adjustment to such regulations will result in better project design. These modifications are required to be reviewed by the SBAR, and granted preliminary approval before the modification is considered by the County Zoning Administrator. In order to grant preliminary approval, the SBAR must find that the modification is minor in nature and will result in a better site or architectural design (Article II, §35-179.6; Article III, §35-321.6).

SECTION 7.0 SPECIFIC AREA DESIGN GUIDELINES REFERENCES

In addition to the basic guidelines outlined previously in this document, guidelines for specific areas of the county have been prepared with input from the sitting BARs and the community. These additional guidelines are contained in the separate documents listed below.

7.1 GOLETA PLANNING AREA

Design guidelines for the Goleta Planning Area are contained in Appendix B of the Goleta Community Plan. The guidelines apply only to commercial and industrial development and include standards relating to site layout, project design, landscaping and transportation access

7.2 GOLETA OLD TOWN REVITALIZATION AREA

The Goleta Heritage District Design Guidelines are intended to guide both public and private development of Old Town parcels. The purpose of these guidelines is to enhance the image of Old Town, ensure development of a distinctive and unified streetscape, and contribute to a more pedestrian oriented downtown area.

7.3 SUMMERLAND COMMUNITY PLAN AREA

The purpose of these guidelines is to provide guidance to an applicant on locally appropriate architectural and landscape design features to ensure that a proposal will harmonize with and complement the eclectic, seaside character of Summerland.

7.4 HIGHWAY 101 CORRIDOR

The purpose of these guidelines is to preserve and enhance the freeway's existing character that provides scenic and visual resources for residents as well as travelers using this highway corridor. The intent of the guidelines is to assist the communities and involved public agencies in maintaining the highway in its historic and scenic character while allowing for necessary transportation improvements.
